Comprendre l'obésité Catherine Grangeard, 2012-04-12 L'obésité en augmentation croissante apparaît aujourd'hui comme un phénomène de société Pourtant la réponse habituelle apporte cette nigme se limite trop souvent à l'individuelle Or comme l'explique Catherine Grangeard psychanalyste et membre de réseaux de prise en charge d'obésité il s'agit d'une pathologie plurifactorielle voire multiple car il existe plusieurs types d'obésité A travers une série de cas très représentatifs de tous les âges et de tous les milieux elle montre comment le rapport à l'alimentation traduit la relation soi et au monde Mais aussi que l'individu obèse tant avant tout un être social sensible son environnement et sa culture bien d'autres éléments sont prendre en compte Elle aide à comprendre comment le psychique et le somatique s'articulent et s'articulent du symptôme pour s'intéresser au sujet son histoire sa parole Car se limiter la question de l'alimentation compromet inévitablement les projets de perte de poids même quand la meilleure volonté les accompagne

Porneia Aline Rousselle, 2013-01-07 Porneia means fornication unchastity desire for another's body Drawing on Roman and Greek works of science medicine gynecology and law and on Christian and pagan religious texts Aline Rousselle discovers the intimate fears passions superstitions and ambitions of the people of the Mediterranean world during the first four centuries AD The first part of the book describes Roman notions of male and female sexuality attitudes to fertility inheritance child care and training legal restraints on sexual behavior concubinage and divorce and the extraordinary rituals of orgy castration and sacrifice associated with ancient rites of fertility and spirituality Yet the sexual problems of antiquity will be seen in many respects to be almost exactly those of the contemporary West from fear of impotence to the concern of parents about teenage

misbehavior The second part of the work is concerned with the impact of Christian ideas upon a settled pagan tradition Abstinence once associated with the enhancement of fertility becomes the key to salvation The first monastic regimes and the means by which men and women curtailed and overcame their desire for one another are described in detail Centuries of concern with fertility became in this revolutionary period an obsession with chastity in this world and a secure place in the next This is a tour de force of scholarship and historical anthropology The author s argument may be controversial but few can fail to be fascinated by the evidence she marshals to support it *Livres de France* ,2006 *Livres hebdo* ,2007
