melodic minor scales over the entire neck in seven positions Pentatonic Blues Diminished and whole tone scales are also included Learn how you can play major and minor pentatonic patterns in 10 different keys in just one position This book also includes how to play fourteen different keys in one position using modal scales giving you complete musical control over key changes Included are fret maps detail a simple to understand root based system in two key positions giving you complete understanding over the entire guitar fretboard Theoretical explanations of pentatonic major melodic and harmonic minor blues chromatic whole tone and diminished scales A large suite of exotic scales are also included for those that are looking to learn patterns that are on the fringe Original music examples and pieces provided in music and TAB throughout Guitar Scales You Can Use enabling you to learn the patterns whilst you actually play music and not just patterns Included open string patterns cover major minor pentatonic and blues scales If you think you know what the cycle of fifths is about then think again Guitar Scales You Can Use shows how you can use this often overlooked music tool to the best effect

HOW THE INFORMATION IS DELIVERED Divided into three chapters Open Scale Patterns Fretted Scale Patterns Symmetrical Scale Patterns each section within these chapters includes blank chord boxes and staff TAB sheets for your own workings and examples Traversing the entire neck in one key playing round the cycle of fifths in one position major harmonic and minor scale comparison sheets are included to give you the best chance of getting your scalar knowledge together once and for all Modes are also covered and demystified showing you how to both create and apply these often misunderstood patterns All three chapters are backed up by our Youtube videos viewable via QR codes so you can view the scales being demonstrated by GMI's Ged Brockie

The Whole Guitar Neck Steven Coco, 2022-05-06 Please be sure you have read our introduction at www.TheWholeGuitarNeck.com We've made our full method introduction available for free there and it is an integral part of our complete method Our method is a musically complete method and it is not limited to only the diagrams that you may see in the previews Also each book is available in right handed and left handed formats be sure to select the correct format This book covers the Diatonic Scale and is for 4 String Bass Guitar and Right Handed players picking with the right and fretting with the left hand The Whole Guitar Neck is an authentic and concise guitar method based only on musical rudiments and an easy learning path Primary components are large books of guitar neck charts of various scales in all chords and all modes Our method brings you a firm grasp within any fingering on any diagram along the whole neck The book is in two parts and is available for many scales For the particular scale the book includes a collection of dozens of large charts for that scale and each one is given in all chords and all modes for that scale Every book also includes our complete method Our method then gives you all of the musical components and it will provide you with robust and easy orientations You will be able to confidently grip the neck from any position and have orientation along any musical line of your own You will gain the perspective of seeing all of the charts from the markers out and you will feel oriented at any position Our musical method is also applied to your own music in addition to any scales Getting all the way down to the rudiments in our method will reveal

that the diagrams come second to the music and there's even a lot more than just one anchor in one diagram. They will all fall away into your own music. Our easy rudiments-based method is musically sound and that is what simply leads out to all of these shapes on the whole neck and our books have been designed to free up the whole neck. Our method is based only on the music while still as easy to grasp as a simple-looking diagram.

Backup Trax: Basic Blues for Guitar Dix Bruce, 2011-03-11

Learn to play 14 classic blues the best way by doing This book and CD provide your backup band as you explore Country and Urban Acoustic and Electric Delta Texas Chicago Slide Guitar Alternate Tuning Traditional and Modern styles in many different major and minor keys and in a variety of tempos. Melodies are first presented on the recording at a slow speed with just guitar then repeated at regular speed with the band. Finally you can play along with the hot blues rhythm section alone and you've got the makings of a dynamite blues jam session. You'll play all the leads and solos. Repeat a tune or passage as many times as you want at slow or regular speed. We'll jam all night long. Beginners and intermediate players can practice basic skills. Advanced players can hone their improvisation chops. The split track recording allows you to hear either just the melody from one speaker just the rhythm section from the other or both for maximum flexibility and specific study. The book includes melodies chord diagrams and guitar tablature.
