Discipline Problems Tadashi Dozono, 2024-05-07 Angel a Black tenth grader at a New York City public school self identifies as a nerd and likes to learn But she s troubled that her history classes leave out events like the genocide and dispossession of Indigenous people in the Americas presenting a sugar coated image of the United States that is at odds with her everyday experience The history I learned in school is simpler she says The world I live in is a lot more complex Angel like every student interviewed in Discipline Problems has been identified by teachers as a troublemaker a student whose behavior disrupts classroom norms and interferes with instruction But her critiques of the curriculum she s taught speak to her curiosity and insight crucial foundations for understanding history Like many students who have been marginalized by systemic racism in American schools she exposes the shortcomings of her classrooms academic environments by challenging both the content and the methods of her education All too often these challenges are framed as troublemaking and the students are disciplined for acting out instead of being rewarded for their intellectual engagement Tadashi Dozono a professor of education and former high school social studies teacher takes seriously the often overlooked critiques that students of color who get labeled as troublemakers direct toward their high school history curriculum He reinterprets troublemaking usually cast as a behavioral deficit as an intellectual asset and form of reasoning that challenges the disciplining reason of classrooms where whiteness is valued over the histories and knowledge of people of color Dozono shows how what are traditionally framed as discipline problems can be seen through a different lens as responses to educational practices that marginalize non white students Discipline Problems reveals how students of color seek out alternate avenues for understanding their world and imagines a pedagogy that champions the curiosity intellect and knowledge of marginalized learners

Public Education, Neoliberalism, and Teachers Paul Bocking, 2020-04-20 From pressure to teach to the test and the use of quantitative metrics to define education quality to the rise of school choice and the shift of principals from colleagues to managers teachers in New York Mexico City and Toronto have experienced strikingly similar challenges to their professional autonomy By visiting schools and meeting teachers government officials and union leaders Paul Bocking identifies commonalities that are shaping how teachers work and public schools function While arguing that neoliberal education policy is a dominant trend transcending the realities of school districts states or national governments Bocking also demonstrates the importance of local context to explain variations in education governance especially when understanding the role of resistance led by teachers unions

The Brilliance of Black Children in Mathematics Jacqueline Leonard, Danny B. Martin, 2013-03-01 This book is a critically important contribution to the work underway to transform schooling for students who have historically been denied access to a quality education specifically African American children The first section of the book provides some historical perspective critical to understanding the current state of education in the U S specifically for the education of African American children The

following sections include chapters on policy learning ethnomathematics student identity and teacher preparation as it relates to the mathematical education of Black children Through offering counternarratives about mathematically successful Black youth advocating for a curriculum that is grounded in African American culture and ways of thinking providing shining examples of the brilliance of Blacks students and promoting high expectations for all rather than situating students as the problem the authors of this book provide powerful insights related to the teaching and learning of mathematics for African American students As is made evident in this book effective teaching involves much more than just engaging students in inquiry based pedagogy Kitchen 2003 The chapters offered in this book demonstrate how mathematics instruction for African American students needs to take into account historical marginalization and present day policies that do harm to Black students Kunjufu 2005 Empowering mathematics instruction for African American students needs to take into consideration and promote students cultural spiritual and historical identities Furthermore mathematics instruction for African American students should create opportunities for students to express themselves and the needs of their communities as a means to promote social justice both within their classrooms and communities

Excellence Through Equity Alan M.

Blankstein,Pedro Noguera,Lorena Kelly,2016-02-26 Excellence Through Equity is an inspiring look at how real world educators are creating schools where all students are able to thrive In these schools educators understand that equity is not about treating all children the same They are deeply committed to ensuring that each student receives what he or she individually needs to develop their full potential and succeed To help educators with what can at times be a difficult and challenging journey Blankstein and Noguera frame the book with five guiding principles of Courageous Leadership Getting to your core Making organizational meaning Ensuring constancy and consistency of purpose Facing the facts and your fears Building sustainable relationships They further emphasize that the practices are grounded in three important areas of research that are too often disregarded 1 child development 2 neuroscience and 3 environmental influences on child development and learning You ll hear from Carol Corbett Burriss Michael Fullan Marcus J Newsome Paul Reville Susan Szachowicz and other bold practitioners and visionary thinkers who share compelling and actionable ideas strategies and experiences for closing the achievement gap in your classrooms and school Ensuring that all students receive an education that cultivates their talents and potential is in all our common interest As Andy Hargreaves writes in the coda The opportunity for all Americans is to articulate and believe in an inspiring vision of educational change that is about what the next generation of America and Americans should become not about a target or ranking that the nation should attain From the Foreword by Archbishop Desmond Tutu Letting go of a system of winners and losers in favor of what is proposed in this book is a courageous leap forward that we all must take together Let this bold practical book be a guide and may you travel into this new exciting vista in which every child can succeed

What is Happening in Your Community? Matthew J. Hanka, 2021-05-03 Communities are not static or stationary organisms They are fluid and dynamic and change over time The role of community development in the change and transformation of a community is critical to improving and enhancing the quality of life of the community and its residents This book examines how community development changes a community and why that change matters while also examining the relationship between community development and social capital When a community improves its social capital change can happen because people can leverage their networks to produce better results for themselves This book also looks at comprehensive community development and collective impact models and several case studies that utilize these models It also looks at how the transformation and revitalization of a neighborhood through new housing creates opportunities for people everywhere and how effective placemaking strategies empower diverse groups of people in a community to reimagine their public spaces and the built environment to be more livable walkable creative and sustainable while fostering greater connections with people in their community

The College Handbook, 1989 *Disabling the School-to-Prison Pipeline* Laura Vernikoff, 2021-05-11 Young people who have received special education services in the United States are vastly overrepresented in juvenile and adult criminal justice systems relative to their numbers in the general population Although much existing research blames individual kids for getting arrested school level policies and practices affect a variety of student outcomes including involvement with the justice system These school level policies and practices can and should be altered by teachers administrators and policy makers to reduce the number of young people getting arrested Disabling the School to Prison Pipeline uses administrative data from New York City public schools and interviews with young people who have received special education services in NYC public schools and been arrested to better understand how schools can help

or harm students receiving special education services Schools cannot fix all problems associated with the criminal justice system in the United States however we can certainly expect schools not to make existing problems worse This book identifies school level policies and practices that may lead to negative outcomes for students such as getting arrested and suggests alternatives
