Diversity, Equity, and Inclusion in Strategic Communications Lee Bush, Karen Lindsey, 2024-08-15 Taking a DEI first approach, this book teaches students to become culturally proficient communicators by approaching diversity, equity and inclusion, DEI with intentionality in every aspect of strategic communications. Those who work in strategic communications play a powerful role in shaping public perceptions and thus have a crucial responsibility to understand and practice the principles of diversity, equity and inclusion in their work. This book introduces students to DEI theories and concepts and guides them through applying these concepts to communications research, planning and execution. Chapters in the book align with the courses and competencies most often taught in advertising and public relations programs. It also includes chapters on Inclusive Leadership and Working on Diverse Teams as students will need these competencies when working on group/class projects and in preparing for internships. The concluding chapter on Communicating for Social Change allows students to look beyond advertising and PR as corporate-centered disciplines and expand their understanding of the power of communications to advocate for social justice and change. Ideal for students at the undergraduate level with relevance to graduate students as well, the book can be used as a stand-alone text in DEI communications courses as a supplement to core advertising or public relations texts or in modules in advanced communications courses.
