Yahya,2003 Expressions of the Last Days Jeff Porter,2014-05-19 Something seems to be pushing our world into a new era People sense that something monumental is about to take place The book of Revelation describes a time of great upheavals and terrible events that will rock and shake planet earth This writing is designed to provide insights into the nature of those last days and how to survive in the midst of them The Last Book John Williams,2007-08-27 There have been many attempts to explain life For the most part they are variants on a religious or mystical theme These provide a purpose to life but not the purpose of life A full rational explanation of our existence based on our rapidly accumulating scientific knowledge has eluded us until now The explanation of life which is offered in this book draws on three main components evolution genetics and psychology However something exists in our mind which stops us from seeing clearly what is already before us Once this block is removed we can view life objectively and see it as a special form of information which has arisen through evolution Information is identified as the unifying entity of the universe which is inherent in the spatial arrangement of matter This book relates these findings to our world and our lives It sets out in rational terms where we came from how we got here and finally reveals our destiny www.thelastbook.co.uk The Chronicles of Dr. Ann Bennet: The Last Day Of Normal Life Judith L. Mitz,2015-08-13 We find Dr Bennett standing at a window staring down the city parkway Dr Bennett is reminiscing about her early years growing up in the area she calls home The sights sounds and smells of the world she has known is about to end Dr Bennett has devoted decades of preparation for moving the best of what mankind has to offer to somewhere other than earth not just scientists like herself but musicians artisans and people from all walks of life that excel at what they do Dr Bennett was selected by the committee to design a way station underground moon base and space station

to begin the journeys for thousands of lifeforms Dr Bennett also designed the sky cities of earth that were mounted high above earth's surface to protect as many forms of life as possible to produce food and supplies for those who would live in space Since the 1950s a select group of trained scientists knew the Ice Age was approaching preparations began then
