A Reporters Life:

A Reporter's Life Walter Cronkite, 1996 An autobiography of the former CBS evening news anchorman **The Phonographic Reporter; Or Reporter's Companion** Isaac Pitman, 1890 *Secrets of the Sanctum. An Inside View of an Editor's Life* Alonzo F. Hill, 2024-03-17 Reprint of the original first published in 1875 *New York Magazine*, 1996-12-16 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **Illustrated Phonographic World**, 1889 **Cub Reporters** Paige Gray, 2019-08-01 Cub Reporters considers the intersections between children's literature and journalism in the United States during the period between the Civil War and World War I American children's literature of this time including works from such writers as L Frank Baum Horatio Alger Jr and Richard Harding Davis as well as unique journalistic examples including the children's page of the Chicago Defender subverts the idea of news In these works journalism is not a reporting of fact but a reporting of artifice or human made apparatus artistic technological psychological cultural or otherwise Using a methodology that combines approaches from literary analysis historicism cultural studies media studies and childhood studies Paige Gray shows how the cub reporters of children's literature report the truth of artifice and relish it They signal an embrace of artifice as a means to access individual agency and in doing so both child and adult readers are encouraged to deconstruct and create the world anew *The Reporter's Guide* Thomas Allen Reed, 1869 *The Reporters* John William Wallace, 1882 A standard guide to early American legal bibliography [The Great Reporters](#) David Randall, 2005-08-20 Who are the greatest reporters in history This unique book is the first to try and answer this question Author David Randall searched nearly two centuries of newspapers and magazines consulted editors and journalism experts worldwide and the result is The Great Reporters 13 in depth profiles of the best journalists who ever lived Each profile tells of the reporter's life and his or her major stories how they were obtained and their impact Packed with anecdotes and inspiring accounts of difficulties overcome the book quotes extensively from each reporter's work It also includes an essay on the history of reporting charting the technologies economics and attitudes that made it the way it is from the invention of the telegraph to the Internet The Great Reporters is not just the story of 13 remarkable people it is the story of how society's information hunter gatherers succeed in bringing us all what we need to know [The Mind of a Journalist](#) Jim Willis, 2010 What propels an individual into becoming a professional observer and chronicler of society joining a group that is often targeted for criticism by the general public Can a journalist really have an objective view of the world and the way it operates or do journalists each operate from a specific worldview parts of which are held in common by all journalists Do journalists feel they can become involved in normal social and civic activities or is the world a detached

storehouse of ideas for stories Is the journalist most effective on the sidelines of society or in getting involved in the action or taking to the field as a referee or field judge If journalists are so devoted to the ideals of objectivity detachment truth and providing an accurate view of the world why do so many of them leave journalism and move into public relations media consulting and advertising These are just some of the issues explored in *The Mind of a Journalist How Reporters See Themselves Their Stories and the World* For students and would be journalists this book analyzes the rational processes journalists use in defining themselves their world and their relation to that world Written by veteran journalist and noted professor Jim Willis with many observations from working and recently retired journalists from both print and broadcast the goal of the book is to put this discussion of journalist thinking into the classroom alongside discussion of reporting and writing techniques Ultimately the book provides added insights to how journalists think and why they do what they do Features Benefits Included throughout the book are many observations interviews from working journalists at such media outlets as The Los Angeles Times The Boston Globe CNN The Memphis Commercial Appeal WRTV Television in Indianapolis and The Daily Oklahoman A running single story example President s Bush s decision to invade Iraq in 2003 shows how the same story was treated by several different journalist mindsets and thereby examining how these different mindsets defined the issues of truth ethics and legality for this story
