A Science and Religion Primer Heidi Campbell, Heather Looy, 2009 This unique resource part A to Z encyclopedia part annotated bibliography and part survey introduction examines key concepts in the science and religion dialogue

On Being Human Jonathan Noble, 2018-12-26 An intellectual multi disciplined journey exploring what it means to be human by one very ordinary man who was deeply interested in answering this question for himself and possibly at least beginning to answer this very ancient perplexing question for others Also an excellent resource book for those interested in beginning their own journey into the meaning of human being

Science and Religion Lucas F. Johnston, Whitney Bauman, 2014-02-05 This collection offers new perspectives on the study of science and religion bringing together articles that highlight the differences between epistemological systems and call into question the dominant narrative of modern science The volume provides historical context for the contemporary discourse around religion and science detailing the emergence of modern science from earlier movements related to magic and other esoteric arts the impact of the Reformation on science and the dependence of Western science on the so called Golden Age of Islam In addition contributors examine the impacts of Western science and colonialism on the ongoing theft of the biological resources of traditional and indigenous communities in the name of science and medicine The volume s multi perspectival approach aims to refocus the terms of the conversation around science and religion taking into consideration multiple rationalities outside of the dominant discourse

Calvinism for a Secular Age Jessica R. Joustra, Robert J. Joustra, 2022-02-08 Pastor politician and Dutch Neo Calvinist theologian Abraham Kuyper s lectures on the role of Christian faith in politics science and art have become a touchstone of contemporary Reformed theology Revisiting these lectures Jessica and Robert Joustra bring together theologians historians scientists and others to consider Kuyper s ongoing importance and complex legacy for today

Science and Christianity: Close Partners or Mortal Enemies? Dave Armstrong, 2012-02-13 It s very fashionable nowadays to assert that Christianity and science are antithetical or that God has been ruled out of science or disproven particularly by Darwinian evolution or that science is based on reason and evidence whereas religion being faith

based supposedly cares little or nothing for same or that one cannot consistently be a Christian and also a real scientist I shall contend that not only are science and Christianity completely compatible but that modern science would not have even gotten off the ground if it hadn't been for medieval scholastic Catholic thought I shall demonstrate that the foundations of modern science in the 16th century were overwhelmingly Christian and theistic The notion that science and religion are fundamentally incompatible is ludicrous and would obliterate science at its very roots Includes mini biographies of 293 scientists and a chart of 115 scientific fields of study founded or extraordinarily advanced by Christian or theistic scientists

The Clock C. S. Wimmer, 2015-06-23 Gods voice whispers through the words of the prophet Isaiah I make known the end from the beginning from ancient times what is still to come Isaiah 46 10 NIV When warning his disciples about heaven and earth passing away Jesus said No one knows about that day or hour not even the angels in heaven nor the Son but only the Father Be on guard Be alert You do not know when that time will come Mark 13 32 33 NIV Are we to believe that God makes known the end from the beginning Or should we believe that the day and the hour are unknowable In truth these seemingly contradictory verses in Scripture are equally believable when time is viewed on two different clocks To date however humankind has relied solely on the 24 hour clock that secured residence within the human mind more than 8 000 years ago Humanitys one clock perspective of time is entirely useless in determining spiritual beginnings and endings Yet a different perspective emerges from the text of Genesis 1 which does in fact make known the end from the beginning The Clock revealed within the pages of this book will help the human spirit develop a healthy theology of time and not a moment too soon Through the lens of light color and image The Clocks colorful face revisits the past identifies the present and makes known the future while orienting the human mind on its journey through time If Jews and Christians desire additional insight into our shared spiritual beginnings we must discover The Clock in Genesis 1 and embrace a two clock perspective of time Once aware of a second timekeeping option the mystery surrounding many end times scenarios will be removed enabling us to travel together with confidence into our projected future Its time to understand the times *Where Wisdom May Be Found* Edward P. Meadors, 2019-08-29 All Christian colleges and universities hail the integration of faith and learning as a premier mission objective There is less agreement as to what the integration of faith and learning should look like in pedagogical and cross disciplinary terms This volume proposes that faith and learning are interrelated from the start Discovery of truth within the academic disciplines cultivates discipline specific wisdom that both accords with all reality and complements the whole counsel of God *Where Wisdom May Be Found* brings together a faculty of twenty seven accomplished voices from across curricula to celebrate each field s capacity for revealing wisdom from all corners of God s creative design In synthesis these voices declare the depth and richness of the wisdom and knowledge of God for the educational advancement and holistic equipping of the corporate people of God Contributing authors Dorothy Chappell Hadley Mitchell Kenman Wong Russ Howell Mike Guebert James Ault Clinton Arnold Kevin Vanhoozer Jeffry Davis Cameron Anderson Jim

Bradley Derek Schuurman Kersten Priest Leland Ryken David Entwistle Stephen Contakes Rick Kennedy James Spiegel Arnold Sikkema Tony Payne Jeff Greenman Dave Wolf Nathan Thielman Paul DeHart Angela Konrad Brian Brock **Science and the Religious Right** John Jagger,2010-09 In Science and the Religious Right biophysicist John Jagger discusses false scientific and social positions of the Religious Right including the ideas that the earth is only six thousand years old evolution never occurred and the United States was founded as a Christian nation At best such stances of the Religious Right have produced extensive political turmoil they undermine true understanding of ourselves and the world we live in Many Americans know little science and are thus easily confused by such positions of religious fundamentalists Jagger begins with a scientific primer for the intelligent and curious nonscientist with simple explanations of such highly successful theories as relativity and evolution He then discusses religion explaining why many scientists become freethinkers after the models of Thomas Jefferson and Benjamin Franklin who did not believe in a personal God He shows that while mainstream religion largely accepts modern science the Religious Right holds anti science and anti intellectual ideas that have great social and political consequence they want to replace teaching of evolution in our public schools with creationist ideas that are totally unsupported by science Science and the Religious Right shows why knowledge of some basic science as well as of correct religious history is essential for understanding false stances of the Religious Right that threaten American values and scientific truth **Victorian Interdisciplinarity and the Sciences** Bernard Lightman,Efram Sera-Shriar,2024-05-14 The specialization thesis the idea that nineteenth century science fragmented into separate forms of knowledge that led to the creation of modern disciplines has played an integral role in the way historians have described the changing disciplinary map of nineteenth century British science This volume critically reevaluates this dominant narrative in the historiography While new disciplines did emerge during the nineteenth century the intellectual landscape was far muddier and in many cases new forms of specialist knowledge continued to cross boundaries while integrating ideas from other areas of study Through a history of Victorian interdisciplinarity this volume offers a more complicated and innovative analysis of discipline formation Harnessing the techniques of cultural and intellectual history studies of visual culture Victorian studies and literary studies contributors break out of subject based silos exposing the tension between the rhetorical push for specialization and the actual practice of knowledge sharing across disciplines during the nineteenth century
