Robbins, 2007-10-18 A family on the last starship finds that stories themselves may very well save a dying world In one of those stories a man dies of radio while another finds a new lease on life in an ancient dingus A phone that can be used to call a few minutes into the future leads to unexpected turmoil An anthroid on trial for a murder may be the victim of a faulty linguistic circuit A retired astronaut who cannot get his footing the last librarian on earth tales of a future ghetto where surprise is still a possibility and a mathematician whose brilliant insight continually slips his mind These are few of the themes to be found in this collection of mystery science fiction tales in the speculative tradition of the satires of Kurt Vonnegut and the ironies of Jorge Luis Borges from the author of A Small Box of Chaos and the award winning An Interlude in Dreamland Light, 1907 Unexpected Dates of Love: A Cozy Holiday Romance of Matchmaking, Missteps, and Merry Surprises Noelle Evergreen, Clara Turner is perfectly content spending Christmas solo until her well meaning friends and neighbors decide she needs a little help in the love department Between surprise setups awkward encounters and a holiday calendar that fills with unexpected dates faster than she can say I m fine Clara finds herself in the middle of a matchmaking whirlwind she never asked for But just as she s ready to swear off love altogether one particular date catches her by surprise not for its chaos but for its quiet charm and genuine connection Set in the cozy town of Whispering Pines Unexpected Dates of Love is a delightful holiday tale of missed signals meddling matchmakers and the kind of romance that sneaks up on you when you least expect it **Random Fluctuations and Pattern Growth: Experiments and Models** Harry Eugene
