

BBW / colour switchable viewfinder

Some professional users find it beneficial to view an image in black and white to assist with focusing operations. For this reason, the HVR-A1E allows you to choose either a colour or black & white display on the viewfinder depending on your preference.

Simultaneous operation of LCD panel & viewfinder

Allowing you greater flexibility to focus shots accurately via viewfinder while simultaneously framing images via the fold-out LCD panel.

Cineframe 25 & Cinematone Gamma

As well as the HVR-21E camcorder, the HVR-A1E provides Cineframe mode (25 frames) and 2-mode Cinematone Gamma, in order to meet requirements for making images cinematic and film-like look.

2ch XLR audio inputs

The HVR-A1E offers the recording of audio by providing built-in stereo microphone, as well as 2ch XLR audio inputs for connecting an external microphone or feeding an external-line audio source.

Time code preset

Supports professional operation with flexible time code and user bit settings.

Selectable manual Focus / Zoom ring

The ring positioned in front of the body can be selected for manual focus or manual zoom, with direct operation of using the slide switch located near the ring.

Assignable button

A frequently-used function can be registered to this button so that it can be recalled instantly with the touch of the button. The assignable functions are Status Check, Steady Shot, One Push White Balance, Histogram Indicator or Colour Bar.

Exposure lever

This new lever allows direct manual control of brightness. It can be assigned for either Exposure or AE-L/AF-L function by menu setting.

Take MACRO function

The new function enables to take "macro" picture for a specific object even from a distance. The

photographic subject can be made more conspicuous since the background fades automatically.

Histogram Indicator

The new indicator allows you to check the brightness of an object and easily adjust exposure by viewing this graphical presentation.

Benefits

An affordable way to enjoy High Definition

The HVR-A1E further supports that HD is for everyone. Through the HDV format Sony's HVR-A1E allows you to capture High Definition pictures on a standard DV format cassette – providing both a highly cost effective format and full 1080 line resolution.

The ability to choose the most appropriate recording format for your production

With the Sony HVR-A1E, you are able to switch between HDV, DVCAR and DV recording giving you full flexibility to record in either Standard or High Definition depending on your requirements. Taking still images is also possible with the HVR-A1E.

Designed for professional use

As a professional, Sony recognises that your needs are different to that of a consumer. As a result the HVR-A1E incorporates a number of specific features to support your needs.

Ultra-compact design

Brings the realism of High definition to an even wider range of production needs. A lightweight and small design means that HDV shots can be achieved even when space is at a premium.
