

Technology Needs Report

The purpose of this report is to identify the technology needs to start up a new office of three new employees for James Otis Tax Associates. To provide accurate resources, I researched to determine what hardware components, software programs, and security measures required for a tax office. I started by researching first what type of hardware are must-haves for this business to accurately and efficiently complete their tasks. I then studied what software was required to complete their job duties correctly. Lastly, I focused my attention on the type of security measures a small business, which handles lots of personal information, needed.

Hardware:

A Certified Public Accountant is handling lots of sensitive data with a high volume of clients. According to Abrigo.com, there are three must-haves in hardware for a CPA:

- 8+ GB of RAM, 256GB SSD (Solid State Drive), multiple USB ports.
- 5th-8th gen (when available) i5/i7 processor or possibly a Ryzen 5/Ryzen 7 processor.
- Sufficient screen "real estate" and resources so that the user can sit at the desk and work 12 to 14 hours with minimal eyestrain. (Biery, 2019)

Taking this into account, I recommend a Dell OptiPlex 5070 Desktop with an M.2 256 GB PCIe NVMe Class 40 Solid State Drive, 8GB 1x8GB 1x8GB DDR4 2666MHz UDIMM Non-ECC, with an Intel Core i7-9700 (8 Cores/12MB/8T/3.0GHz to 4.7GHz/65W). These specifications on the desktop make for a faster boot-up, processing tasks, and software quickly and a tremendous amount of memory for your hard drive. For monitors, I recommend 2 Dell UltraSharp 24" Monitors. These monitors give the employee enough space to work with an infinity edge. The desktop also has multiple ports on both front and back panels to connect additional devices.

For keyboard and mouse, I recommend using a wireless keyboard and mouse to make it easier for your employees to maneuver around their desks without worrying about the cord getting tangled or having a limited range. I included speakers to make sure that when the employee needs assistance, they can hear the help desk. For other equipment, I have added a printer/copier/scanner/fax machine. This multifunction machine will assist all three employees with all printing needs. I recommend all three computers be of the same build, with all of the same features of hardware components and peripherals. By having all three computers with the same build, it will help maximize the work each employee produces.

Software:

For the software, we begin with Windows 10 Pro 64bit operating system. I recommend Windows because professional tax software is created for the Microsoft Windows operating system ("Tax Preparers Professional Tools," 2015). Windows 10 Pro comes already installed in the Dell OptiPlex 5060 Desktop. The beauty of Windows 10 is that Microsoft Office 365 is included for a trial period. Microsoft Office 365 gives your employees email, Word, and Excel amongst a bunch of other programs that are included with Windows 10 Pro. Having Word and

The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts.

The Secret History is a brilliant and suspenseful novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
