A Reporters Life By Walter Cronkite Knopf December 29 1996:

Getting It Wrong W. Joseph Campbell, 2016-10-25 Many of American journalism's best known and most cherished stories are exaggerated, dubious, or apocryphal. They are media-driven myths, and they attribute to the news media and their practitioners far more power and influence than they truly exert. In *Getting It Wrong*, writer and scholar W. Joseph Campbell confronts and dismantles prominent media-driven myths describing how they can feed stereotypes, distort understanding about the news media, and deflect blame from policymakers. Campbell debunks the notions that the Washington Post's Watergate reporting brought down Richard M. Nixon's corrupt presidency, that Walter Cronkite's characterization of the Vietnam War in 1968 shifted public opinion against the conflict, and that William Randolph Hearst vowed to furnish the war against Spain in 1898. This expanded second edition includes a new preface and new chapters about the first Kennedy-Nixon debate in 1960, the haunting Napalm Girl photograph of the Vietnam War, and bogus quotations driven by the Internet and social media.

Reporting from Washington Donald A. Ritchie, 2005-03-15 Beginning with 1932, when a newly elected FDR energized the sleepy capital, Ritchie highlights the dramatic changes in journalism that have occurred in the last seven decades. We meet legendary columnists and investigative reporters as well as the pioneers of radio, television, cable television, and internet news. We also learn about the efforts of female and black reporters to break into what had long been a bastion of white maleness: the press corps. From Walter Winchell to Matt Drudge, the people who cover Washington politics are among the most colorful and influential in American news. *Reporting from Washington* offers an unforgettable portrait of these figures as well as of the dramatic changes in American journalism in the twentieth century.

Media, NASA, and America's Quest for the Moon Harlen Makemson, 2009 When Apollo 11 landed on the moon in July 1969, it capped not only the most remarkable engineering feat in history but also a decade-long battle over how much access the press and public should have to the manned space program. Now, forty years after an awed world watched Neil Armstrong and Buzz Aldrin bounce across the surface of the moon, this book tells the behind-the-scenes story of how NASA and the U.S. media were often at odds but ultimately showed extraordinary cooperation in bringing the story of lunar conquest to the world. Drawing upon rich historical sources from NASA, journalists, and television networks, this book sheds new light on how media shaped how we saw America's great adventure in space and raises contemporary questions about the role of information in a free society.

Journalism at the End of the American Century, 1965-Present James Brian McPherson, 2006-06-30 McPherson captures the best and worst aspects of American journalism since 1965. The press has evolved into a conglomeration of entities that today can be described as pervasive, entertaining, and justifiably mistrusted. In some ways, today's press offers the best journalism Americans have ever seen. In other ways, the modern news media fall short of the ideals held by most of those who care about journalism and far short of the promise they once seemed to offer in terms of helping create an enlightened democracy. Neither a paean to the press nor an exercise in media bashing, this book finds much to criticize and to praise.

about recent American journalism while illustrating that traditional journalistic values have diminished in importance not just for many of those who control the media but also for the media consumers who most need good journalism Chapters are devoted to various themes that include social unrest the influence of entertainment values technological shifts media consolidation and corporatization issues of content versus context new kinds of news media and why the 1970s may have been the high point of American journalism Events and issues given extra attention include the rise of television news and later CNN the Civil Rights Movement and other race related issues the Women s Movement various forms of alternative journalism wars in Vietnam and Iraq investigative journalism the World Trade Center attacks the Clinton Lewinsky scandal the 2000 and 2004 presidential campaigns and elections civic journalism and journalism scandals Speak Softly and Carry a Big Stick J.
