missionary translation around the world As missionary churches were established and as societies worldwide were affected by the gospel people studied the translations preached from them and recounted stories to their children In many societies these translations were the foundation for Christian communities for theology including indigenous theologies and a powerful stimulus to modernization and even secularization reaching beyond the Christian community Smalley contends that the theological presuppositions of these missionary translators varied widely He argues that some missionary translators were insightful scholars who probed deeply into the languages and cultures in which they were working others were unable to transcend the perspective their own culture prescribed for them Earlier missionaries did not always have a clearly formulated theory of translation or an understanding of what they were doing and why Eventually however a theoretical model was developed a model that the majority of translators both missionary and nonmissionary now use Smalley maintains that the task of Bible translation is now passing out of the hands of missionaries and back into the hands of native speakers casting the missionary translator into significantly changed roles in the translation process

John Davis Mullins,1886 **British Museum Catalogue of printed Books** ,1895 *Making the New World Their Own*

Qiong Zhang,2015-05-26 In *Making the New World Their Own* Qiong Zhang offers a systematic study of how Chinese scholars in the late Ming and early Qing came to understand that the earth is shaped as a globe This notion arose from their encounters with Matteo Ricci Giulio Aleni and other Jesuits These encounters formed a fascinating chapter in the early modern global integration of space It unfolded as a series of mutually constitutive and competing scholarly discourses that reverberated in fields from cosmology cartography and world geography to classical studies Zhang demonstrates how scholars such as Xiong Mingyu Fang Yizhi Jie Xuan Gu Yanwu and Hu Wei appropriated Jesuit ideas to rediscover China s place in the world and reconstitute their classical tradition Winner of the Chinese Historians in the United States CHUS 2015 Academic Excellence Award
