A Speech About Respect In Sepedi:

Soshanguve paremiology+ Napjadi Letsoalo, Mpho Ngoepe, 2025-08-15 This scholarly book explores the transformative role of proverbs in cultural education preservation and scholarly discourse in South Africa. It emphasises the importance of integrating indigenous African knowledge into academic spaces to support decolonisation, re-Africanisation and transformation. Proverbs are presented as tools for promoting multilingualism, multiculturalism, social cohesion and mutual respect in South Africa's diverse society. The book addresses the United Nations UN Sustainable Development Goal (SDG) 4: quality education, SDG 5: gender equity, SDG 9: innovation and SDG 10: reduce inequality. It serves as a teaching resource for proverbs in Northern Sotho, Sepedi, Sesotho, Setswana, Xitsonga, isiZulu, isiXhosa, isiNdebele, siSwati and/or Tshivenda, a Sotho Shangaan, Nguni and Venda, i.e. Soshanguve as well as Chichewa and Shona, supporting cross-cultural understanding. Grounded in a scholarly project on a multilingual proverbs dictionary, the book applies theoretical frameworks such as conceptual metaphor theory, ethnopragmatics and translation quality assessment to analyse proverbs. This interdisciplinary approach bridges linguistics, anthropology and digital humanities, offering fresh insights into the semantics and cultural significance of proverbs. The chapters in the book explore themes like proverbs in music, their intersection with patriarchy and translation quality assessment. Targeted at scholars and experts in languages, literature, linguistics and digital humanities, the book advances the study of proverbs while fostering cultural awareness and sensitivity. It highlights the value of proverbs as linguistic and cultural assets, enriching academic and practical applications across disciplines. **Proceedings**, 2002

Subtitling Through Speech Recognition Pablo Romero-Fresco, 2020-09-30 Based on sound research and first-hand experience in the field, *Subtitling through Speech Recognition: Respeaking* is the first book to present a comprehensive overview of the production of subtitles through speech recognition in Europe. Topics covered include the origins of subtitling for the deaf and hard of hearing, the different methods used to provide live subtitles and the training and professional practice of respeaking around the world. The core of the book is devoted to elaborating an in-depth respeaking course, including the skills required before, during and after the respeaking process. The volume also offers detailed analysis of the reception of respeaking, featuring information about viewers' preferences, comprehension and perception of respoken subtitles obtained with eye-tracking technology. Accompanying downloadable resources feature a wealth of video clips and documents designed to illustrate the material in the book and to serve as a basis for the exercises included at the end of each chapter. The working language of the book is English, but the downloadable resources also contain sample material in Dutch, French, Galician, German, Italian and Spanish. *Subtitling through Speech Recognition: Respeaking* is designed for use as a coursebook for classroom practice or as a handbook for self-learning. It will be of interest to undergraduate and postgraduate students as well as freelance and in-house language professionals. It will also find a reading public among broadcasters, cinema, theatre and museum managers as well as the deaf and members of deaf associations who may use the volume to support future
