expensive to attract builders and buyers But are they The answer to this question has enormous consequences since residential and commercial buildings together account for nearly 50% of American energy consumption including at least 75% of electricity usage according to recent government statistics This eye opening book reports the results of a large scale study based on extensive financial and technical analyses of more than 150 green buildings in the U S and ten other countries It provides detailed findings on the costs and financial benefits of building green According to the study green buildings cost roughly 2% more to build than conventional buildings far less than previously assumed and provide a wide range of financial health and social benefits In addition green buildings reduce energy use by an average of 33% resulting in significant cost savings Greening Our Built World also evaluates the cost effectiveness of green community development and presents the results of the first ever survey of green buildings constructed by faith based organizations Throughout the book leading practitioners in green design including architects developers and property owners share their own experiences in building green A compelling combination of rock solid facts and specific examples this book proves that green design is both cost effective and earth friendly

Retrofitting Suburbia, Updated Edition Ellen Dunham-Jones, June Williamson, 2011-03-29

Updated with a new Introduction by the authors and a foreword by Richard Florida this book is a comprehensive guide book for urban designers planners architects developers environmentalists and community leaders that illustrates how existing suburban developments can be redesigned into more urban and more sustainable places While there has been considerable attention by practitioners and academics to development in urban cores and new neighborhoods on the periphery of cities there has been little attention to the redesign and redevelopment of existing suburbs The authors both architects and noted experts on the subject show how development in existing suburbs can absorb new growth and evolve in relation to changed demographic technological and economic conditions Retrofitting Suburbia was named winner in the Architecture Urban Planning category of the 2009 American Publishers Awards for Professional and Scholarly Excellence The PROSE Awards awarded by The Professional and Scholarly Publishing PSP Division of the Association of American Publishers
