White,2011-12-27 Venture into the blackness of space with Dewey D Whites well wrought *The Deep Wide and Dark* The science is nothing short of sorcery as an extra terrestrial humanoid named John Jay Corsey gives mankind a dimensional boost from Einsteins quantum theory for the love of a twenty year old stripper With science heretofore unknown to humans but which was found to be related to the alien spacecraft that crash landed near Roswell New Mexico Corsey becomes the center of a massive project to build the first faster than light starship to take flight into universa incognita searching for two unearthly elements but quickly more than rocks are found by the newly minted Space Marine Corps Corsey found mankind
