Happy Endings Jim Norton, 2008-06-10 Jim Norton is a pervert in the truest sense of the word The physical equivalent of a tall slug he pays top dollar for massages with happy endings and is fascinated by shitty sitcoms and fat girls He is also at times racially offensive and morally repugnant He spares no one in his comedy least of all himself Now in this outrageous blisteringly funny collection of essays Norton tackles the topics that are near and dear to his heart from public events like the legendary Voyeur Bus incident on the Opie and Anthony Show which culminated in all involved being taken to jail or seeking a hug from his childhood idol Gene Simmons to deeply private moments including a teenage Jim's embarrassing poetry writing attempts while in rehab and his inexpensive sexual experience with an unwashed MILF a *Monolith I'd Like to Forget* His stories are raw searingly honest in their attention to detail and most of all hilarious Filled with personal photos and nearly fifty candid and uncompromising essays *Happy Endings* is one of a kind and probably best read on an empty stomach

Imagining Afghanistan Alla Ivanchikova,2019-09-15 *Imagining Afghanistan* examines how Afghanistan has been imagined in literary and visual texts that were published after the 9 11 attacks and the subsequent U S led invasion the era that propelled Afghanistan into the center of global media visibility Through an analysis of fiction graphic novels memoirs drama and film the book demonstrates that writing and screening Afghanistan has become a conduit for understanding our shared post 9 11 condition Afghanistan serves as a lens through which contemporary cultural producers contend with the moral ambiguities of twenty first century humanitarianism interpret the legacy of the Cold War debate the role of the U S in the rise of transnational terror and grapple with the long term impact of war on both human and nonhuman ecologies Post 9 11 global Afghanistan literary production remains largely NATO centric insofar as it is marked by an uncritical investment in humanitarianism as an approach to Third World suffering and in anti communism as an unquestioned premise The book's first half exposes how persisting anti socialist biases including anti statist bias not only shaped recent literary and visual texts on Afghanistan resulting in a distorted portrayal of its tragic history but also informed these texts reception by critics In the book's second half the author examines cultural texts that challenge this limited horizon and forge alternative ways of representing traumatic histories Captured by the author through the concepts of deep time nonhuman witness and war as a multispecies ecology these new aesthetics bring readers a sophisticated portrait of Afghanistan as a rich multispecies habitat affected in dramatic ways by decades of war but not annihilated

Devoted Arron Chambers,2014-09-01 Being a disciple of Jesus is an issue of devotion rather than duty Before Peter began the most important act of his life discipleship Jesus didn't ask him How many chapters of the Torah did you read today or Are you attending services at the synagogue each week or Did you give your tithe today No before Peter began his journey of discipleship Jesus asked him Do you love Me Arron Chambers thinks that we are asking new disciples of Christ the wrong questions and that it's time to start truly following the example of Christ by asking of disciples what Christ asked of Peter devotion not duty In *Devoted* Arron presents a new paradigm for discipleship falling in love with Jesus This approach to discipleship emphasizes passion for Jesus as opposed to a plan for following Jesus

Representing Jihad Jacqueline O'Rourke,2012-08-09 The jihad has been at the centre of the West's securitization discourse for more than a decade

Theorists constantly use the jihadist as a discursive tool to further their neoliberal military and market agendas perpetuating massive gaps of understanding between the West Muslims and jihadists themselves They are helped by Muslim interlocutors who all too often play the role of good Muslims explaining the motifs of the bad Muslims This timely book argues that Muslim theory and fiction has been significantly commodified to cater to the needs of western ideology It skillfully critiques the ideological contradictions of the debate around the jihadist by offering a comprehensive analysis of Muslim and non Muslim cultural critics Ranging from Edward Said to Slavoj Zizek from Don DeLillo to Orhan Pamuk and from Mohammed Siddique Khan to Osama bin Laden this vastly heterogeneous discourse produces a multi dimensional Muslim response O Rourke examines some of its critical fault lines in postcolonial theory and literary analysis This groundbreaking book argues that the temptation to appropriate the figure of the jihadist offers a fertile area from which to launch a discussion about the limits of current theory

After Saddam Dina Badie, 2017-07-25 After Saddam American Foreign Policy and the Destruction of Secularism in the Middle East investigates the manner in which American foreign policy in Iraq artificially shifted the balance of power in the region and brought religious identities to the foreground Deposing Saddam Hussein resulted in a new regional order that diminished the strength of secular nationalism elevated Iran and Saudi Arabia as

regional rivals and by implication established a new ideological paradigm that privileged competing religious factions over secular ideals. The trend first manifested itself in Iraq during the American occupation with Iranian backed Shiites fighting Saudi supported Sunnis. A similar dynamic is evident in current regional wars in Syria and Yemen. By elevating particular groups through rhetorical financial and military support, civil conflicts in the Middle East reflect the ideologies behind the Saudi Iranian rivalry. This book therefore looks beyond popular narratives of intractable long standing Sunni Shia conflict to explain the source of current sectarian tension as a product of balance of power dynamics. It also helps to explain the fracturing of the region that created a ripe environment for groups like the Islamic State to capitalize on sectarian grievances. This book relies and builds on balance of power theorizing by looking at the way that traditional competition for power between states and nonstate actors shapes ideological competition. For example, during the Cold War the two major world powers, the U.S. and the Soviet Union, helped to shape international conflicts so that the narrative of capitalism vs communism played a prominent role in civil and international conflicts such as in Korea, Nicaragua, or Angola. By meddling in the internal affairs of states, arming rebel groups, and lending support to competing factions, the U.S. and U.S.S.R. shaped not only outcomes but also the ideas underpinning conflicts. Today a similar dynamic can be discerned in the Middle East.
