Introduction to Modern Infrastructure Construction George Wang, Don Chen, Jennifer Brandenburg, 2024-12-30

Introduction to Modern Infrastructure Construction serves as a pivotal resource for construction management education focusing primarily on heavy civil construction and the latest technological innovations in the field. This essential textbook is designed for both academic and professional use, thoroughly covering critical topics including earthwork, highway planning, design, asphalt production, paving, recycling technology, and transportation asset management. Additionally, it explores various aspects of infrastructure such as bridges, railways, airports, and pipelines, offering comprehensive insights beneficial to project management in these areas. Each chapter is supplemented with discussion questions or assignments to enhance educational value, and the text includes lab practice appendices to reinforce practical application. Authored by leading experts in the field, George Wang, Jennifer Brandenburg, and Don Chen, Introduction to Modern Infrastructure Construction draws on their extensive experience in academic teaching, research, and practical application. Their expertise provides readers with a unique blend of theoretical knowledge and real-world perspective, making this book an indispensable guide for anyone aspiring to excel in the field of infrastructure construction.

Urban Bikeway Design Guide, Third Edition National Association of City Transportation Officials, 2025-01-14. The guide will serve as an essential blueprint for safe, active, multi-modal streets. Gabe Klein, former Chicago Transportation Commissioner, says: "The completely revised and updated third edition of the NACTO Urban Bikeway Design Guide sets a new standard for street design in North America. Developed for cities by cities, the new guide is more than a permission slip for better street design; it's a prescription for safe, connected, equitable bike networks. It captures lessons learned and emerging practices to set a new bar for the design of city streets. Every transportation professional, from design to maintenance and from field staff to executives, needs a copy for their daily work."

Guidelines for Submerged Floating Tube Bridges FIB - International Federation for Structural Concrete, 2020-10-01. This bulletin is a guidelines document for Submerged Floating Tube Bridges that represents an innovation in Marine Concrete Structures. This theme is considered important for Commission 1 since in the future several applications are forecast in marine environments. Submerged Floating Tube Bridges are a solution that can be proposed to solve different problems in passing water constraints, as lakes and fiords, reducing the impact and allowing several economic advantages. The guidelines certainly will boost the application of Submerged Floating Tube Bridges since the document is useful not only for designers but also for construction companies, owners, and public administrations. As guidelines, the bulletin gives wide information on the design, construction, and management of these structures, allowing all the users to be confident in promoting the use of Submerged Floating Tube Bridges.
