

Gender learning in Alice Munro's short story entitled "Boys and Girls"

Ratna Asmarani*

Faculty of Humanities, Diponegoro University, Indonesia

The issues around gender is inexhaustible since gender can be analyzed from many perspectives. The focus of this paper is to discuss the gender learning experienced by the young girl in a short story entitled "Boys and Girls" written by Alice Munro. The discussion includes the young girl's gender defiance, gender learning, and gender acceptance. To support the discussion several issues around gender are reviewed. Besides a comprehensive definition of gender, issues concerning doing gender, gender identity, gender order, gender segregation, gender learning, gender presentation, gender display, and others are reviewed. The analysis is also combined with the conversation analysis by considering the influence of the language that leads to gender learning of the female character in the short story. The methods used are a combination of library research method with its close reading, qualitative method, and contextual method. The result shows that gender learning is inevitable especially in an isolated place. Although the young girl tries to defy the gender learning she finally has to accept it. This situation correlates with Simone de Beauvoir's statement "ONE is not born, but rather becomes, a woman" (De Beauvoir, 1956: 273) in her phenomenal book *The Second Sex*. Thus, the short story implies that being a girl in a strict male context is not easy, she has to surrender to the gender roles that are constructed for her, and the chances to actualize herself is limited or even non-existent.

INTRODUCTION

"Boys and Girls" is a short story by Alice Munro, a Canadian female writer (born 1931). This short story "was first published in 1968 in *The Montrealer*, before it was collected with fourteen other stories and published in Alice Munro's first edition of short stories, *Dance of the Happy Shades* (1968)" (Thacker, 2013). "Boys and Girls" is narrated by a young girl and it talks about her experience of becoming a woman. Her surrounding taught her through many ways to become an acceptable woman by avoiding certain attitudes and following certain advices. Although at first she tried to resist the normative rules that she considered as limitations, she finally succumbed to the never-ending gender socialization.

The analysis on gender especially on the gender learning experienced by the young girl in Alice Munro's "Boys and Girl" needs a review on several concepts concerning gender and its socialization. Lorber and Farel (1991) remind us that "In reality, girls and boys, women and men are more alike than they are different" or as Holmes (2009) says "women and men are not different species". They want to make us aware that basically girls and boys are the same because they belong to the same species. However the similarity quickly evaporates because of the application of "sameness taboo" (Rubin, 1975 in Lorber, Judith and Farel (1991)).

Palusci, 2018-01-23 Alice Munro has devoted her entire career to the short story form in her fourteen collections, having won the Nobel Prize in Literature as master of the contemporary short story. This edited volume investigates her art as a storyteller, the processes she performs on the contemporary short story genre in her creative anatomical theatre. Divided into five topical sections, it is a collection of scholarly chapters which offer textual insights into a single story, compare two or more texts, or casts a more panoramic view on Munro's literary production, embracing stories from her first collection *Dance of the Happy Shades* to her last published *Dear Life*. Through different critical approaches that range from post-structuralism to cultural studies, from linguistics and rhetorical analyses to translation studies, the authors insist on the concept that no fixed patterns prevail in her short stories as Munro has constantly developed, challenged, and revised existing modes of generic configuration while discussing the fluidity, the elusiveness, the indeterminacy, the ambiguity of her superb writing.

Female gender roles in the short story "Boys and Girls" by Alice Munro, 2020-10-05 Seminar paper from the year 2020 in the subject American Studies / Literature, University of Constance, language: English, abstract: Stereotyping and the discovery of limitations of the female gender can be seen as two important themes Alice Munro deals with in her short story Boys and Girls. In Boys and Girls, which will be the base of this term paper, Munro criticises the social expectations and the gender roles of females illustrated through the rebellion of the main character. The paper will show how the main protagonist deals with existing gender roles and rules in the society to that time and her attempts of liberation from social norms. Although the 20th century is also characterized by two waves of feminism, first the author will concentrate on female and male characters in the story as well as on general gender conceptions in the Canadian society to that time. Thus, the term paper will focus on the relationships between the characters as well as on how gender and symbols are connected. **Nature and Gender in Alice Munro's Short Story "Boys and Girls"** Aleksandra Dediukina, 2024-09-09 Seminar paper from the year 2024 in the subject English Language and Literature Studies / Literature, grade 1.3, http://www.uni-jena.de/English_and_American_Studies/course
