(South Africa). Department of Education, 2017 **The Rise of English** Rosemary Salomone, Rosemary C. Salomone, 2022 A sweeping account of the global rise of English and the high stakes politics of language Spoken by a quarter of the world's population English is today's lingua franca its common tongue The language of business popular media and international politics English has become commodified for its economic value and increasingly detached from any particular nation This meteoric rise of English has many obvious benefits to communication Tourists can travel abroad with greater ease Political leaders can directly engage their counterparts Researchers can collaborate with foreign colleagues Business interests can flourish in the global economy But the rise of English has very real downsides as well In Europe imperatives of political integration and job mobility compete with pride in national language and heritage In the United States and England English isolates us from the cultural and economic benefits of speaking other languages And in countries like India South Africa Morocco and Rwanda it has stratified society along lines of English proficiency In *The Rise of English* Rosemary Salomone offers a commanding view of the unprecedented spread of English and the far reaching effects it has on global and local politics economics media education and business From the inner workings of the European Union to linguistic battles over influence in Africa Salomone draws on a wealth of research to tell the complex story of English and ultimately to argue for English not as a force for domination but as a core component of multilingualism and the transcendence of linguistic and cultural borders *Quality education* Muchativugwa L. Hove, Martha Matashu, 2021-11-30 This book investigates the intersections between education social justice gendered violence and human rights in South African schools and universities The rich and multifarious tapestry of scholarship and literature emanating from South African classrooms provides a fascinating lens through which we can understand the complex consequences of the economies of education social justice imperatives gendered violence in the lives of women and children and marginalised communities The scholarship in the book challenges readers to imagine alternative futures predicated on the transformational capacity of a democratic South Africa Contributors to this volume examine the many ways in which social justice and gendered violence mirror express project and articulate the larger phenomenon of human rights violations in Africa and how in turn the discourse of human rights informs the ways in which we articulate interrogate conceptualise enact and interpret quality education The book also wrestles with

the linguistic contradictions and ambiguities in the articulation of quality education in public and private spaces This book is essential reading for scholars seeking a solid grounding in exploring quality education the instances of epistemic disobedience the political implications of place and power and human rights in theory and practice **Annual**

Performance Plan Mpumalanga (South Africa). Department of Education,2016 **Promoting effective enforcement of the prohibition against corporal punishment in South African schools** Faranaaz Veriava,2014-06-13 The prohibition against corporal punishment is an integral part of the broader transformation of South African education The prohibition seeks to replace South Africa s violent and authoritarian past with an ethos respectful of human dignity and bodily integrity

Suid-Afrikaanse Hofverslae ,2014 **Mathematics Teaching and Professional Learning in sub-Saharan Africa** Kakoma Luneta,2021-12-09 The book represents a crop of wide ranging research conducted by renowned scholars in sub-Saharan Africa revolving around mathematics teaching and professional development programs for mathematics teachers The research based proposals and actual how to conduct professional development initiatives that enhance effective mathematics instruction are rooted in teacher input and informed by learners errors and misconceptions The book provides a comprehensive snapshot on mathematics teaching learning and effective professional development programmes for mathematics teachers in sub-Saharan Africa It is the only research output that advances and disseminates issues of mathematics education and research in the region with input from South Africa Kenya Rwanda Uganda Malawi Namibia Lesotho Ethiopia and Zimbabwe **Mud to bricks: A review of school infrastructure spending and delivery** Carmen Abdoll,Conrad Barberton,2014-07-04 The Centre for Child Law commissioned this study by Cornerstone Economic Research to track school infrastructure spending and delivery The report written by Carmen Abdoll and Conrad Barberton makes the concerning finding that the national Department of Basic Education has woefully underspent the School Infrastructure Backlog grant for two years running In 2011 2012 spending was a little over 10 per cent and only at 23 per cent in 2012 2013 at the end of the third quarter The ASIDI target for the number of schools to be built in 2011 2012 and 2012 2013 was 49 However only 10 had been completed by the end of the first year They predict that if the DBE continues at the same delivery rate a realistic timeframe for the eradication of schools with inappropriate structures is probably 2023 24 They make recommendations which if followed could shorten the delay significantly This study shows the importance of monitoring and evaluating progress against court orders and out of court settlements to ensure that the right to a basic education is made real
