The Experience of Life Witness Lee, 1988 Life's Mysteries Osho, 2000-10-14 I teach love of life This was the basis of all of Osho s teachings and one that was often lost in the controversies that surrounded him for most of his career as a spiritual guide A man of vast learning who had read everything he could find to broaden his understanding of the belief systems and psychology of modern man he was at the same time completely original in his approach insisting on finding out the truth for himself rather than accepting what had been taught by others Iconoclastic yet persuasive lucid yet grounded in a wealth of theological knowledge his message found a worldwide audience In Life s Mysteries the reader is introduced to some of the key tenets of Osho s philosophy A sampling Life I teach the art of living your life totally of being drunk with the divine through life Love If you really want to know about love forget about love and remember meditation just as if you want to bring roses into your garden forget about roses and take care of the rosebush In the right time the roses are destined to come Sex If it can give birth to a child to a new life you can imagine its potential it can bring a new life to you too Enlightenment You should not make any effort you should relax and enlightenment comes Death To me death is not the end of life but the very climax If you have lived rightly if you have lived moment to moment totally if you have squeezed out the whole juice of life your death will be the ultimate orgasm
