Automated Grammatical Error Detection for Language Learners, Second Edition Claudia Leacock, Michael Gamon, Joel Alejandro Mejia, Martin Chodorow, 2022-06-01 It has been estimated that over a billion people are using or learning English as a second or foreign language and the numbers are growing not only for English but for other languages as well These language learners provide a burgeoning market for tools that help identify and correct learners writing errors Unfortunately the errors targeted by typical commercial proofreading tools do not include those aspects of a second language that are hardest to learn This volume describes the types of constructions English language learners find most difficult constructions containing prepositions articles and collocations It provides an overview of the automated approaches that have been developed to identify and correct these and other classes of learner errors in a number of

languages Error annotation and system evaluation are particularly important topics in grammatical error detection because there are no commonly accepted standards Chapters in the book describe the options available to researchers recommend best practices for reporting results and present annotation and evaluation schemes The final chapters explore recent innovative work that opens new directions for research It is the authors hope that this volume will continue to contribute to the growing interest in grammatical error detection by encouraging researchers to take a closer look at the field and its many challenging problems

Narrative Inquiry in Language Teaching and Learning Research Gary Barkhuizen, Phil Benson, Alice Chik, 2024-08-30 Narrative Inquiry in Language Teaching and Learning Research is the only entry level introduction to research methods using stories either as data or as a means of presenting findings and a practical guide for those interested in carrying out narrative studies This successful text is grounded in published empirical research within the field of language teaching and learning and clearly defines basic concepts in narrative inquiry explaining how and why narrative methods have been used in language teaching and learning research and outlining different choices and approaches It also examines the different ways of eliciting analyzing and presenting narrative inquiry data which offers exciting prospects for language teaching and learning research This second edition has been fully revised and updated to reflect the latest research and includes new sections on multimodal digital narrative research and the reporting of findings in dissertations and theses This original and well respected textbook is an ideal course book for specialist courses on narrative inquiry in language teaching and learning It is an excellent entry level text for undergraduate students preparing honours projects postgraduate masters and doctoral students embarking on narrative projects and more advanced researchers seeking to understand the role of narrative inquiry in language teaching and learning research It is also the go to choice as a reference on narrative in more general applied linguistics research methodology courses

Researching and Teaching Speech Acts with Young L2 Learners Milica Savić, Anders Myrset, Maria Economidou-Kogetsidis, 2024-12-10 This book introduces the main concepts of pragmatics as they relate to the young English language learner classroom and research with young second language learners YLLs It considers the speech acts which are particularly relevant to YLLs and presents research findings on learners development of speech act perception and production It provides pre and in service second language L2 teachers teacher educators and researchers with an understanding of young learners pragmatic development and with ideas for research based approaches and specific classroom activities to help foster speech act development in the YLL classroom Moving beyond the research methods traditionally employed in L2 pragmatics research it also demonstrates how participant centred data elicitation methods can be effective when conducting research with children This book will appeal to researchers advanced undergraduate and postgraduate students in applied linguistics and TESOL as well as pre and in service primary school L2 teachers and teacher educators

Language Intake Carol Griffiths, 2024-11-05 Aimed towards advanced students and researchers in language acquisition and teaching Language Intake Understanding and

Improving Language Learning and Teaching considers the long debated definition of language intake and its determining factors. In doing so it presents a unique argument for language input and intake with a particular focus on how input interaction identity and investment contribute to intake through complex intercommunication. The book defines each of the contributing factors of intake in turn and demonstrates the principles of language intake through interviews with successful language learners in order to encourage teachers to take these factors into consideration so as to maximise intake of the target language. The author proposes that all these multiple factors contribute to what might be called the Intake Hypothesis which can be outlined as a practicable framework to support teachers in providing rich interesting and extensive input affording opportunities for interaction respecting learner identity and offering a motivating environment to encourage and sustain investment of time and effort thereby contributing to intake.

Early Childhood Deaf Education: Teacher Preparation and Instructional Approaches Graham, Patrick, Neild, Nena Raschelle, 2025-09-25 Early childhood is a critical period for language acquisition cognitive development and social emotional growth making high quality education essential for those who are deaf or hard of hearing. Effective early childhood deaf education requires specialized teacher preparation and carefully designed instructional approaches that address the linguistic and communication needs of young deaf learners. Educators must be trained in general early childhood pedagogy and deaf education strategies including sign language proficiency auditory verbal techniques and culturally responsive teaching. With ongoing debates around language modalities inclusion practices and access to early intervention services the preparation of qualified teachers and the adoption of evidence based instructional methods play a central role in shaping positive educational outcomes for deaf children. Early Childhood Deaf Education Teacher Preparation and Instructional Approaches explores teacher preparation for the diverse needs of deaf and hard of hearing children in early childhood settings. It examines the effectiveness of various instructional approaches in supporting language development academic readiness and social integration. This book covers topics such as literacy young students and special education and is a useful resource for educators academicians researchers and scientists.

Multilingualism in the Australian Suburbs Ruth Fielding, 2015-04-25 This book introduces a framework for examining bilingual identity and presents the cases of seven individual children from a study of young students bilingual identities in an Australian primary school. The new Bilingual Identity Negotiation Framework brings together three elements that influence bilingual identity development: sociocultural connection investment and interaction. The cases comprise individual stories about seven young bilingual students and are complemented by some more general investigations of bilingual identity from a whole class of students at the school. The framework is explained and supported using the students' stories and offers readers a new concept for examining and thinking about bilingual identity. This book builds upon past and current theories of identity and bilingualism and expands on these to identify three interlinking elements within bilingual identity. The book highlights the need for greater dialogue between different sectors of research and education relating to

languages and bilingualism It adds to the increasing call for collaborative work from the different fields interested in language learning and teaching such as TESOL bilingualism and language education Through the development of the framework and the students stories in this study this book shows how multilingual children in one school in Australia developed their identities in association with their home and school languages This provides readers with a model for examining bilingual identity in their own contexts or a theoretical construct to consider in their thinking on bilingualism language and identity
