

A top-down view of a gardening workspace. The background is a dark, textured surface, possibly soil or a work mat. Scattered around are various potted plants, including green leafy herbs like basil and mint, and some succulents. Gardening tools are visible, including a trowel with a wooden handle and a small shovel. There are also some small pots and containers. The overall scene is well-lit, highlighting the vibrant green of the plants against the dark background.

Vertical Gardening Tips For Beginners Timothy Tripp,2013-05-05 Vertical gardening is the process of gardening that is done vertically or upward While the traditional gardening process is gardening with plots on the ground vertical gardening is a different approach to gardening as it aims to plant crops in a vertical position or standing position This can either be done through

hanging plots or with frameworks as long as plants are not planted on the ground like in traditional gardening There are several advantages of vertical gardening One vertical gardening is a great space saver Since your garden is positioned vertically it does not take up too much space in your backyard giving room to more plants to be planted Two vertical gardening is a very flexible type of gardening because it allows you to plant or to build a garden even in an area with limited space For instance if you are only gardening on your rooftop or you only have a very small backyard it is possible for you to plant many crops through vertical gardening even with that limited space you have If you want to build a vertical garden there are several things you need to be aware of First you need to know how to build one you need to know how to prepare the soil for a vertical garden you need to know how to maintain your vertical garden and you need to know how to control pests and keep them from destroying your plants This way the time money and effort you invested in building this garden won't be in vain This book will discuss and reveal some of these helpful vertical gardening tips you need
