Creative AI Tools and Ethical Implications in Teaching and Learning Keengwe, Jared, 2023-09-18 As generative Artificial Intelligence AI tools become increasingly prevalent it is crucial for educators to develop a nuanced understanding of the ethical implications associated with their use Educators today face the critical task of navigating the pedagogical applications of AI and maximizing its potential to foster student learning Creative AI Tools and Ethical Implications in Teaching and Learning is an insightful exploration of the ethical considerations surrounding the integration of AI in education Educators may fear how it will rapidly transforming the educational landscape but this book serves to support them and delves into the opportunities and challenges that arise when leveraging AI to enhance teaching and learning experiences Creative AI Tools and Ethical Implications in Teaching and Learning goes beyond theory to offer practical strategies for integrating AI creatively into the classroom From learning analytics and educational data mining to AI game activities and generative AI tools like ChatGPT this book equips educators with the knowledge and resources to adapt AI technologies to support teaching and learning effectively Moreover the book explores the vital connection between AI and student assessment highlighting how AI can enhance the evaluation process while maintaining fairness and objectivity It concludes with an insightful glimpse into the future of AI in education envisioning the transformative possibilities that lie ahead This comprehensive guide provides educators researchers and policymakers with the tools they need to navigate the complexities of AI in education

Methods of IT Project Management, Fifth Edition Jeffrey L. Brewer, Kevin C. Dittman, Paul J. Thomas, 2025-09-15 Designed for graduate advanced undergraduate and practitioner project management courses with an information technology focus Methods of IT Project Management is designed around the Project Management Body of Knowledge PMBOK incorporating material from the latest seventh edition while still maintaining the

book's process approach. The text provides students with all the concepts, techniques, artifacts, and methods found in the leading project management reference books and modern development methodologies: agile, hybrid, and traditional, while also conveying practical knowledge that can immediately be applied in real-world settings. This book uniquely integrates cutting-edge knowledge and techniques from the industry, ensuring that readers are equipped with the most current and relevant skills. Unlike other books in this area, the material is organized according to the sequence of a generic project life cycle, from project selection to initiation, planning, execution, control, and iteration, or project closeout. Following this life cycle approach, as opposed to covering the material by knowledge area or project performance domain, allows new learners to simultaneously study project management concepts and methods as they develop skills they can use immediately during and upon completion of the course. The text's structure also allows different programs to use the book during real-world projects.

Global Practices on Effective Talent Acquisition and Retention Christiansen, Bryan, Aziz, Muhammad Abdul, O'Keeffe, Elle Lily, 2024-06-03. Studies have indicated that employers across the globe face difficulties in filling critical roles, sparking a worldwide war for talent. This talent war, once a temporary market condition, has now solidified into the New Normal. Leaders recognize that success in this era demands the construction of optimal teams for strategic competitive advantage amid global uncertainty and hypercompetition. As explored in detail within the pages of **Global Practices on Effective Talent Acquisition and Retention**, this book serves as an indispensable guide for scholars and practitioners navigating the intricacies of talent management in the current global scenario. This project aspires to create a comprehensive reference material delving into diverse aspects of current global talent realities. It aims to provide scholars and practitioners with recent empirical, practical, and theoretical research on talent acquisition and retention practices worldwide. The emphasis is on sustainable practices that drive organizational success across multiple industries. The impact of this publication will resonate in both application and the direction of future research. **Proceedings of the 5th International**

Conference on Internet, Education and Information Technology (IEIT 2025) Hemachandran Kannan, Ouahmiche Ghania, Intakhab Alam Khan, Abdul Samad bin Shibghatullah, 2025-09-01. This book is an open access. With the development of science and technology, information technology and information resources should be actively developed and fully applied in all fields of education and teaching to promote the modernization of education and cultivate talents to meet the needs of society. From the technical point of view, the basic characteristics of educational informatization are digitalization, networking, intelligentization, and multi-media. From the perspective of education, the basic characteristics of educational information are openness, sharing, interaction, and cooperation. With the advantage of the network, it can provide students with a large amount of information and knowledge by combining different knowledge and information from various aspects at a high frequency. Therefore, we have intensified efforts to reform the traditional teaching methods and set up a new teaching concept from the interaction between teachers and students in the past to the sharing between students. In short, it forms a sharing learning

mode For all students strive to achieve students learning independence initiative and creativity To sum up we will provide a quick exchange platform between education and information technology so that more scholars in related fields can share and exchange new ideas The 5th International Conference on Internet Education and Information Technology IEIT 2025 will be held on May 16 18 2025 in Hangzhou China The IEIT 2025 is to bring together innovative academics and industrial experts in the field of Internet Education and Information Technology to a common forum The primary goal of the conference is to promote research and developmental activities in Internet Education and Information Technology and another goal is to promote scientific information interchange between researchers developers engineers students and practitioners working all around the world The conference will be held every year to make it an ideal platform for people to share views and experiences in international conferences on Internet Education and Information Technology and related areas *Marketing Tourism and Hospitality* Richard George,2025-04-09 This second edition of this comprehensive textbook explores the fundamental principles of marketing applied to tourism and hospitality businesses placing special emphasis on SMEs in the international tourism industry It includes examples from a wide range of destinations from emerging markets to high income countries Taking a comprehensive approach the book covers the whole spectrum of tourism and hospitality marketing including destination marketing marketing research consumer behaviour responsible tourism marketing and digital and social media marketing Practical in focus it gives students the tools techniques and underlying theory required to design and implement successful tourism marketing plans Written in an accessible and user friendly style this entire industry textbook includes case studies drawing on the author s experience and real life examples Revised and expanded throughout it covers Advances in AI robotics and automation Digital marketing electronic customer relationship management eCRM and uses of user generated content UGC New and updated content and discussion questions for self study and to use in class A new chapter on responsible tourism marketing and sustainable approaches to marketing Consumer behaviour in tourism and the effects of climate change and changes in consumer attitudes New trends in tourism and hospitality marketing New in depth real life case studies and industry insights throughout the book Along with key concepts and theory definitions key summaries and discussion questions accompanying online flashcards and PowerPoint slides for lecturers this textbook is ideal for undergraduate and postgraduate students looking for a comprehensive text with a practical orientation *Large Language Models for Medical Applications* Ariel Soares Teles,Alaa Abd-alrazaq,Thomas F.
