Green Membrane Technologies towards Environmental Sustainability Ludovic Francis Dumeénil, Mohtada Sadrzadeh, Mohammad Mahdi A. Shirazi, 2023-08-18. Green Membrane Technology Towards Environmental Sustainability covers experimental and theoretical aspects of greener membranes and processes. The book fills the gap in current literature and offers a platform that introduces and discusses new routes in fabricating green membranes and processes for developing green membranes. Although membranes and membrane processes have decades of history, rapid development in membranes manufacturing and emerging membrane-driven markets is requiring new and more sustainable engagement of manufacturers, membrane operators, and scientists. This book is written for chemical and polymer engineers, materials scientists, professors, graduate students, as well as general readers at universities, research institutions, and R & D departments in industries who are engaged in sustainable engineering and practical strategies in circular economy. Provides a broad reference base on a wide range of information on greener technologies and new generation membranes. Details experimental and theoretical aspects of the greener membranes and processes. Dedicated exclusively to greener routes for fabricating sustainable membranes in separation and delivery applications.

The Economist: Successful Strategy Execution Michel Syrett, 2012-04-05. Strategy to performance gaps foster a culture of underperformance. Unrealistic plans create the expectation throughout the organisation that plans simply will not be fulfilled. This book shows how to overcome such failings and implement strategy effectively. Common failings include: Companies rarely track their performance against long-term plans; less than 15% of companies make it a regular practice to go back and compare the business results with the performance forecast for each business unit in its prior years; strategic results rarely meet projections when companies do track performance; it rarely matches the prior years' projection. The consequence is year after year of underperformance relative to the original plan. A lot of value is lost in translation: a combination of poor communications, misapplied resources, limited accountability, and lack of information creates an in-built strategy to performance gap.

Nutrition with Navigate Advantage Access Dr. Paul Insel, Paul M. Insel, Don Ross, Kimberley McMahon, Melissa Bernstein, 2022-02. Given the vast amount of research focused on food and nutrition, it can prove daunting for introductory nutrition instructors to present their students with the latest scientific content. Insel's *Nutrition* presents the latest nutrition research in an accessible format, supplemented by a behavior change approach that encourages active student engagement.
