O'Neill, Beth Snodderly, 2021-05-18 In a suffering world reeling from global pandemics and health disparities it is high time to think theologically about the devastating experience of disease and to address our God inspired responsibility to understand its origins and engage in its management In a fragmented world we need a unifying and integrated perspective on people in communities embedded in a fractured ecology In an academic world blind to the spiritual world and imbalanced toward technical solutions the global church must articulate a contemporary metanarrative that is moral practical and deeply transformational All Creation Groans brings together multiple perspectives for a compelling global health approach to the pathologies of the world as a part of the missio Dei The authors paint a unifying perspective on God's healing intentions in creation redemption and consummation and the opposing nature corrupting effects of the rebellion of created moral agents It is a fresh call for the global church to engage in aligning with God's healing action for eternally sustainable global health

quantum realm is shaped by our observation of it Just as we think of space time as shaped by gravitational forces and massive bodies so we can conceptualise mind space The latter contains mathematical correlithms of thought emotion and memory whereby what is similar attracts more of the same in a manner analogous to gravity These have effects within the mind and in the wider life field For example severe and repeated childhood trauma creates the equivalent of black holes in the mind space Metaphysics posits that our matter based universe is subtended within an infinite unified field of intelligence and creativity We are contained within a vast mind The principle is that unlimited guidance and knowledge is available via meditation and intuition requiring only that we seek It is never thrust upon us This is a book filled with extraordinary ideas to dip into wherever curiosity and intuition lead It is the author s fervent wish that what is within will stimulate thought and awareness and spark continuing creative concepts concerning our place in this cosmos Conceptual Revolutions
