Higher Education Access in the Asia Pacific Christopher S. Collins, Prompilai Buasuwan, 2017-08-23 This edited volume offers empirical evaluative and philosophical perspectives on the question of higher education as a human right in the Asia Pacific Throughout the region higher education has grown rapidly in a variety of ways Price accessibility mobility and government funding are all key areas of interest which likely shape the degree to which higher education may be viewed as a human right Although enrollments continue to grow in many higher education systems protests related to fees and other equity issues continue to grow This volume will include scholarly perspectives from around the region for a more extensive understanding of higher education as a human right in the Asia Pacific *Modern Islamic Authority and Social Change, Volume 2* Masooda Bano, 2018-03-07 Maps the new Islamic authority platforms emerging in the West and their relationship with older centres of learning in a three fold typology Neo Traditionalists Neo Legalists and Neo Conservatives *Trans People in Higher Education* Genny Beemyn, 2019-02-01 Addresses the experiences of trans college students faculty and staff in a single volume for the first time While more trans students faculty and staff have come out on US college campuses today than ever before many still report enduring harassment and discrimination Others avoid disclosing their gender identity because they do not feel safe or comfortable at their schools This groundbreaking book is the first to address their experiences in a single volume Genny Beemyn brings together personal narratives and original research to give readers both individual and large scale perspectives which provide unprecedented insight into the experiences of trans people in higher education These contributions reveal that despite an improving environment trans people continue to face widespread interpersonal and institutional opposition on campuses across the country Some of the first published research focusing on nonbinary trans undergraduates and trans graduate students is included here in addition to the most comprehensive research to date of trans students at women s colleges and of trans academics *Trans People in Higher Education* also examines the sexual health of trans students the treatment of trans people by individuals with institutional authority and the strategies and lessons learned from one college that successfully became more trans inclusive Weaving personal narratives and research studies together in ways that highlight the full diversity of trans individuals *Trans People in Higher Education* serves as an urgent call to action for higher education to play a leadership role in catalyzing broad social change around trans rights In the process Beemyn offers an invaluable resource for creating a trans welcoming and trans supportive environment on college and university campuses Lynn Pasquerella President Association of American Colleges and Universities PRAISE FOR TRANS PEOPLE IN HIGHER EDUCATION Beemyn s advocacy and research on trans people in higher education is groundbreaking and this edited volume is no exception Through a mix of narratives and personal accounts as well as the findings of research studies by major scholars in the field the book paints a rich portrait of the variety of trans identities and experiences on college campuses today along with recommendations for how campuses can create a

more inclusive environment The volume is an extraordinary resource for all who are committed to creating campus communities that are welcoming and affirming for trans students faculty and staff and for those who simply want to learn more about the experiences of trans people on college campuses today Kristin G Esterberg President State University of New York at Potsdam For more than two decades Genny Beemyn has been at the forefront of higher education research and policy advocacy regarding trans issues Beemyn has given us yet another stellar contribution to those fields with this new anthology which showcases an impressive cohort of emerging voices as well as a burgeoning body of high quality scholarship It s the best most comprehensive overview to date on the timely topics it addresses Susan Stryker author of Transgender History Revised Edition The Roots of Today s Revolution Trans People in Higher Education combines the powerful accessibility of compelling personal stories with the complex and often harsh findings of qualitative and quantitative research to demonstrate the continued need for trans affirming campuses from policy to classroom engagement Despite more than two decades of positive changes in academic institutions trans and nonbinary students faculty and staff continue to struggle for acceptance and equal access This timely book shows that in challenging the constricts of the binary gender system helping others develop skills for culturally competent interactions and expanding campus wide policies these individuals offer academia the best gift of all learning opportunities and the inspiration to do better Willy Wilkinson author of Born on the Edge of Race and Gender A Voice for Cultural Competency [Lifting the Veil on Enrollment Management](#) Stephen J. Islamizing Intimacies Nancy J. Smith-Hefner, 2021-05-31 One of the great transformations presently sweeping the Muslim world involves not just political and economic change but the reshaping of young Muslims styles of romance courtship and marriage Nancy J Smith Hefner takes up the personal lives and sexual attitudes of educated Muslim Javanese youth in the city of Yogyakarta to explore the dramatic social and ethical changes taking place in Indonesian society Drawing on more than 250 interviews over a fifteen year period her vivid well crafted ethnography is full of insights into the real life struggles of young Muslims and framed by a deep understanding of Indonesia s wider debates on gender and youth culture The changes among Muslim youth reflect an ongoing if at times unsteady attempt to balance varied ideals ethical concerns and aspirations On the one hand growing numbers of young people show a deep and pervasive desire for a more active role in their Islamic faith On the other even as they seek a more self conscious and scripture based profession of faith many educated youth aspire to personal relationships similar to those seen among youth elsewhere a greater measure of informality openness and intimacy than was typical for their parents and grandparents generations Young women in particular seek freedom for self expression employment and social fulfillment outside of the home Smith Hefner pays particular attention to their shifting roles and perspectives because it is young women who have been most dramatically

affected by the upheavals transforming this Muslim majority country Although deeply personal the changing aspirations of young Muslims have immense implications for social and public life throughout Indonesia The fruit of a longitudinal study begun shortly after the fall of the authoritarian New Order government and the return to democracy in 1998 1999 the book reflects Smith Hefner s nearly forty years of anthropological engagement with the island of Java and her continuing exploration into what it means to be both modern and Muslim The culture of the new Muslim youth the author shows through all its nuances and variations reflects the inexorable abandonment of traditions and practices deemed incompatible with authentic Islam and an ongoing and profound Islamization of intimacies
