Plant Microbiome: Interactions, Mechanisms of Action, and Applications, volume III Alok Kumar Srivastava, George Newcombe, Gustavo Santoyo, Prem Lal Kashyap, 2025-11-11 Due to the success of the original Research Topic and the following Volume II we have decided to launch a Volume III of Plant Microbiome Interactions Mechanisms of Action and Applications The relationship between plants and their surroundings especially those plant microbe interactions with a beneficial output remain the center of considerable attention Plants depend on their microbiomes for multifarious life supporting activities including nutrient acquisition and augmentation of their defense systems against biotic and abiotic stresses The interactions between a plant and its microbiome are highly complex and dynamic in nature The plant immune system in particular is thought to have a profound impact in determining the plant microbiome structure and diversity Characterizing the plant microbiome and its function could be applied for better crop design and management especially in resource limited environments and to protect plants from intruding pathogens Therefore a deep understanding of the interrelationships of the soil plant microorganism system is essential for improving the efficacy and potential applications of plant growth promoting inocula for achieving sustainable food security and development Recent studies of plant growth promoting rhizobacteria show that cocktails of useful bacteria in the form of synthetic communities are better than single inoculants which face competition from other microorganisms and could be killed or suppressed under sub optimal conditions Microbial activity should also be considered in the construction of microbial co inoculants Understanding plant microbe interactions and mechanisms will also help in the development of smart microbial fertilizer formulation and application in the future This Research Topic welcomes the following subtopics Interactomics for sustainable agriculture studies using novel combinatorial approaches employing computational expertise to analyze the data from genomics transcriptomics metabolomics and proteomics based studies leading to identification of targets and validating wet lab experiments with molecular evidence for resolving issues in agriculture and sustainability Please note that purely descriptive sequencing studies will not be considered Plant microbiome studies deciphering the structure and composition of complex microbial communities associated directly or indirectly with the plant i e endophytic epiphytic and rhizospheric communities and their significance Topic Editors Alok Kumar Srivastava and Prem Lal Kashyap have created commercial products related to the Topic All other topic editors declare no competing interests with regard to the Research Topic subject

Interdisciplinary Topics in Applied Mathematics, Modeling and Computational Science Monica G. Cojocaru, Ilias S. Kotsireas, Roman N. Makarov, Roderick V. N. Melnik, Hasan Shodiev, 2015-07-03 The Applied Mathematics Modelling and Computational Science AMMCS conference aims to promote interdisciplinary research and collaboration The contributions in this volume cover the

latest research in mathematical and computational sciences modeling and simulation as well as their applications in natural and social sciences engineering and technology industry and finance The 2013 conference the second in a series of AMMCS meetings was held August 26 30 and organized in cooperation with AIMS and SIAM with support from the Fields Institute in Toronto and Wilfrid Laurier University There were many young scientists at AMMCS 2013 both as presenters and as organizers This proceedings contains refereed papers contributed by the participants of the AMMCS 2013 after the conference This volume is suitable for researchers and graduate students mathematicians and engineers industrialists and anyone who would like to delve into the interdisciplinary research of applied and computational mathematics and its areas of applications

Deep Eutectic Solvents Mohammad Jawaid, Indra Bahadur, Prashant Singh, Jamal Akhter Siddique, 2024-11-22 Deep Eutectic Solvents highlights well established research and technology on applications of DESs in corrosion sciences protein chemistry and organic synthesis as well as separation science This book provides state of the art research that will revolutionize modern practices Neoteric solvents have been proposed as a better substitute to these harmful organic solvents and scientists have come up with various neoteric solvents in the last few years like Deep Eutectic solvents DESs DESs are defined as a system formed from a eutectic mixture of Lewis or Br nsted acids and bases with various ionic species whereas ionic liquids ILs consist of a discrete anion and a cation DESs stand out as a greener and cheaper neoteric solvent as compared to ILs DESs are denser than water and fairly polar thus can be utilized as non aqueous substitute to water in many separation processes DESs have very high distribution coefficient of solutes and even dissolves gases and metal oxides selectively They also readily dissolve organic macromolecules thereby becoming useful in pharmacological applications Includes the latest updates application of DESs from synthesis to applications Provides in depth and step by step description of knowledge on synthesis characterization investigation through computational tools and applications in different fields Presents chronological advancements for using industrial scale corrosion inhibitors in modern industrial platforms

Handbook of Research on Smart Technology Models for Business and Industry Thomas, J. Joshua, Fiore, Ugo, Lechuga, Gilberto Perez, Kharchenko, Valeriy, Vasant, Pandian, 2020-06-19 Advances in machine learning techniques and ever increasing computing power has helped create a new generation of hardware and software technologies with practical applications for nearly every industry As the progress has in turn excited the interest of venture investors technology firms and a growing number of clients implementing intelligent automation in both physical and information systems has become a must in business Handbook of Research on Smart Technology Models for Business and Industry is an essential reference source that discusses relevant abstract frameworks and the latest experimental research findings in theory mathematical models software applications and prototypes in the area of smart technologies Featuring research on topics such as digital security renewable energy and intelligence management this book is ideally designed for machine learning specialists industrial experts data scientists researchers academicians students and business professionals seeking

coverage on current smart technology models **Challenges and Issues facing the Education System in South Africa** Wilfred Legotlo, 2014-05-05 The quality of education is pivotal for the production of human capital and this cannot be compromised by failing to refocus on the quality of education offered in schools The inputs in the system such as trained and motivated teachers buildings and classrooms including sanitation clean water instructional material such as textbooks as well as strong leadership with vision to steer the winds of change are important in providing the desired outcomes The chapters in this volume are broadly divided into three subsections as follows learner related issues farm and rural schools poverty and schooling school violence and students rights teacher related issues teacher morale and motivation teachers for all schools management needs of school principals and administrative policy related issues inclusive education and school community relations The social demand for better schools effective principals qualified and committed teachers and better opportunities for all place a huge challenge to provinces and the state to protect the rights of all citizens This volume sets out the challenges facing the education system in South Africa such as poor school infrastructure poor learning conditions and a lack of learning materials and provides recommendations on how some of these can be overcome **International Handbook of Universities** ,2010 **Intelligent Computing & Optimization** Pandian Vasant,Ivan Zelinka,Gerhard-Wilhelm Weber,2021-12-30 This book includes the scientific results of the fourth edition of the International Conference on Intelligent Computing and Optimization which took place at December 30 31 2021 via ZOOM The conference objective was to celebrate Compassion and Wisdom with researchers scholars experts and investigators in Intelligent Computing and Optimization worldwide to share knowledge experience innovation marvelous opportunity for discourse and mutuality by novel research invention and creativity This proceedings encloses the original and innovative scientific fields of optimization and optimal control renewable energy and sustainability artificial intelligence and operational research economics and management smart cities and rural planning meta heuristics and big data analytics cyber security and blockchains IoTs and Industry 4 0 mathematical modelling and simulation health care and medicine **Indigenous Pathways into Social Research** Donna M Mertens,Fiona Cram,Bagele Chilisa,2016-06-03 A new generation of indigenous researchers is taking its place in the world of social research in increasing numbers These scholars provide new insights into communities under the research gaze and offer new ways of knowing to traditional scholarly models They also move the research community toward more sensitive and collaborative practices But it comes at a cost Many in this generation have met with resistance or indifference in their journeys through the academic system and in the halls of power They also often face ethical quandaries or even strong opposition from their own communities The life stories in this book present the journeys of over 30 indigenous researchers from six continents and many different disciplines They show in their own words the challenges paradoxes and oppression they have faced their strategies for overcoming them and how their work has produced more meaningful research and a more just society *Advanced Coating Materials* Liang Li,Qing Yang,2018-11-19 Provides a comprehensive yet practical

A composite index of quality of life for the Gauteng city-region: a principal component analysis approach Talita Greyling, The improvement of the quality of life of all South Africans is high on

the agenda at national The National Planning Commission 2012 and regional levels of government The Gauteng Planning Commission 2012 and it is therefore important to develop an instrument that can measure this multi dimensional concept The need therefore exists for a composite index of quality of life with the ability to both track the quality of life of people over time and compare it across different demographic and socio economic groups Such a measure could identify those demographic and socio economic groups with low levels of quality of life and also highlight dimensions that need to be prioritised in order to improve the wellbeing of people In South Africa there are a limited number of quality of life indices and measures of wellbeing Indices that measure wellbeing nationally include the Quality of Life Index of Moller and Schlemmer 1983 the Living Standard Measure LSM Index produced by the South African Audience Research Foundation SAARF 2013 the South African Development Index of the South African Institute of Race Relations 2011 and the Everyday Quality of Life Index Higgs 2007 The following indices measure wellbeing at a regional level the Quality of Metropolitan City Life in South Africa Index Naude et al 2009 the Non Economic Quality of Life Index at Sub National Levels Rossouw Naude 2008 and the Quality of Life Index of the Gauteng City Region Observatory GCRO 2011 Although these quality of life indices make distinctive contributions to the study field the focus of these studies is often to measure only objective or subjective quality of life or only economic or non economic quality of life rather than all of the above Furthermore many of the indices use equal weighting which does not necessarily reflect the priorities of the communities
