Dan Charnas

2011maths Supp Memmo P3:

Dilla Time Dan Charnas, 2022-02-01 WINNER OF THE PEN JACQUELINE BOGRAD WELD AWARD FOR BIOGRAPHY
NEW YORK TIMES BESTSELLER This book is a must for everyone interested in illuminating the idea of unexplainable genius
QUESTLOVE Equal parts biography musicology and cultural history Dilla Time chronicles the life and legacy of J Dilla a
musical genius who transformed the sound of popular music for the twenty first century He wasn't known to mainstream
audiences even though he worked with renowned acts like D Angelo and Erykah Badu and influenced the music of superstars
like Michael Jackson and Janet Jackson He died at the age of thirty two and in his lifetime he never had a pop hit Yet since his
death J Dilla has become a demigod revered by jazz musicians and rap icons from Robert Glasper to Kendrick Lamar
memorialized in symphonies and taught at universities And at the core of this adulation is innovation a new kind of musical
time feel that he created on a drum machine but one that changed the way traditional musicians play In Dilla Time Dan
Charnas chronicles the life of James DeWitt Yancey from his gifted childhood in Detroit to his rise as a Grammy nominated
hip hop producer to the rare blood disease that caused his premature death and follows the people who kept him and his
ideas alive He also rewinds the histories of American rhythms from the birth of soul in Dilla's own Motown to funk techno
and disco Here music is a story of Black culture in America and of what happens when human and machine times are
synthesized into something new Dilla Time is a different kind of book about music a visual experience with graphics that
build those concepts step by step for fans and novices alike teaching us to see and feel rhythm in a unique and enjoyable way
Dilla's beats startling some people with their seeming sloppiness were actually the work of a perfectionist almost spiritually
devoted to his music This is the story of the man and his machines his family friends partners and celebrity collaborators
Culled from more than 150 interviews about one of the most important and influential musical figures of the past hundred
years Dilla Time is a book as delightfully detail oriented and unique as J Dilla's music itself *My Exam Companion Maths*
