Jan Botha ,Gabriele Vilyte

2015 Time Table Unizulu:

Online Teaching and Learning in the COVID-19 Era Felix Maringe, Otilia Chiramba, 2023-11-30 This book examines the ongoing changes initially caused by the COVID 19 pandemic and the future prospects of teaching and learning in higher education institutions It focuses on the impact of online education on issues of learning equity and epistemic justice The transition from traditional face to face teaching to remote learning has exacerbated existing inequalities in epistemological access among higher education students despite the shortcomings of the former in this regard The book features essays by African academics who reflect on the challenges of epistemological access during the sudden shift to hybrid blended and remote teaching and learning It specifically explores the question of equitable learning in diverse home contexts drawing on both theoretical and empirical studies conducted by the authors in South African universities and the region The chapters employ the conceptual framework of epistemic injustice to define and explore various forms of such injustice providing a basis for analyzing the implications of the transition to online pedagogy

Utilisation of South African Research on Higher Education Jan Botha ,Gabriele Vilyte, 2021-10-26 The relationship between research on the one hand and policy practice on the other hand is complicated and collaboration between scholars in research on higher education RHE and institutional research IR practitioners is often lacking This book marks a collaborative effort of a diverse range of South African RHE and IR scholars and asks the overarching questions What do we know about the utilisation of South African research on higher education SARHE and its subset of research known as Institutional Research How and by whom is this research used The book begins by looking at the historical underpinnings of SARHE and delineating the shape and size of this body of research This is followed by a series of case studies on South African Higher Education institutions and governmental bodies investigating how when and by whom are research on higher education and institutional research used in the decision making of these organisations This book is the first of its kind in South Africa and sets out to lay the groundwork for further research into the use uptake and utilisation of RHE and IR in this country
