Livestock climate action in Zimbabwe Food and Agriculture Organization of the United Nations, Svinurai, W.; Masunda, B.; Ayabagabo, J.D.D; Cabeza, I.L; Kachidza, F.; Kamana, R.; Reppin, S.; Rulli, M.; Uwizeye, A., 2025-04-25 Zimbabwe is advancing climate change adaptation in its livestock sector with key strategies reflected in both its initial and updated nationally determined contributions NDCs Although various climate smart practices are already being implemented through livestock support programs their contributions to adaptation and mitigation remain largely undocumented resulting in their omission from the NDCs To address this the Department of Livestock Research has introduced a Tier 2 greenhouse gas GHG inventory for cattle allowing for more accurate assessments of mitigation potential and informing the 2025 NDC update This report brings together insights from literature reviews policy analysis and stakeholder consultations to evaluate the current policy landscape for livestock related climate action It highlights the sector's growing vulnerability to climate change including feed scarcity disease outbreaks and declining productivity The report identifies key policy gaps and stresses the importance of capacity building data driven planning and inclusive engagement to enhance climate resilience and reduce

emissions in the livestock sector *Zimbabwe's Trajectory* V. Masunungure, 2020-11-11 At Independence in 1980 Julius Nyerere called Zimbabwe the jewel of Africa and cautioned its new leaders not to tarnish it Tragically they paid no heed to Africa's esteemed elder statesmen Arguably and only if one ignores the carnage of Gukurahundi the first decade was a developmental one with resources being used prudently to benefit the formerly disadvantaged majority population However the 1990s witnessed a transition from a developmental to a predatory leadership which saw Zimbabwe cross the millennial line in crisis where it has remained ever since While many African countries have moved forward over the last three decades Zimbabwe has gone relentlessly backwards save for the four year interregnum of the tripartite coalition government 2009-2013 Virtually all development indicators point in the wrong direction and the crisis of poverty unemployment and the erosion of health education and other public goods continues unabated The imperatives of political survival and power politics supersede those of sound economics and public welfare Moreover unless good politics are conjoined with a sound people first policy the country will continue sliding downhill Zimbabwe's Trajectory tells the story of the country's post independence dynamics and its recent descent into becoming one of the three most unhappy countries in the world

Law & Investment in Africa Tinahse

Kondo, 2021-04-19 Zimbabwe has had a chaotic foreign direct investment FDI regime This has created the need for a detailed volume on the most important developments around the protection and treatment of FDI at not only a domestic level but also at bilateral regional and international levels The author argues that while Zimbabwe has now harmonised previously scattered legislation under the Zimbabwe Investment and Development Agency Act Chapter 14:37 and taken measures to reverse to varying degrees controversial policies such as the land reform programme and the Indigenism and Economic Empowerment Policy scepticism still prevails over the investor friendliness of the FDI regime in Zimbabwe

Making Politics in Zimbabwe's Second Republic Gordon Moyo, Kirk Helliker, 2023-05-16 The book provides a fresh and innovative interpretation of the new government of Zimbabwe led by Emmerson Mnangagwa which emerged in late 2017 after the downfall of Robert Mugabe It demonstrates the contradictory character of the Mnangagwa government involving both continuities and discontinuities in relation to Mugabe's regime The temptation amongst Zimbabwean scholars has been to focus on the continuities and to dismiss the significance of any discontinuities notably reform measures This book adopts an alternative approach by identifying and focusing specifically on the existence of a formative project of the Mnangagwa's Second Republic further analysing its political significance as well as risks and limitations While doing so the book covers topics such as reform measures reconciliation transitional justice corruption the media agriculture devolution and the debt crisis as well as health and education Discussing the limitations of these different reform measures the book highlights that any scholarly failure to identify the risks of the project leads to an incomplete understanding of what constitutes the Mnangagwa's Second Republic The book appeals to students scholars and researchers of Zimbabwean and African studies political science and international relations as well as policymakers interested in a better understanding of political reform processes
