Open and Distance Education in Asia, Africa and the Middle East Olaf Zawacki-Richter, Adnan Qayyum, 2019-02-18 This book is open access under a CC BY 4.0 license. This book describes the history, structure and institutions of open and distance education in six countries: China, India, Russia, Turkey, South Africa and South Korea. It describes how open and distance education is evolving in a digital age to reflect the needs and circumstances of the national higher education systems in these countries. It also explores the similarities and differences between how their open and distance higher education systems are managed and structured. This book is the second in a series following *Open and Distance Education in Australia, Europe and the Americas* (Springer 2018). Both books compare and draw conclusions about the nature of open and distance education in the context of various national higher education systems. In a digital era characterized by the growing use of online open and distance education, this book will prove particularly valuable for policy makers and senior administrators who want to learn about establishing or expanding open and distance education services. In addition, it offers a valuable reference guide for researchers, academics and students interested in understanding the different approaches to open and distance education.

"ECEG2016-Proceedings of 16th European Conference on e-Government ECEG 2016" Mitja De Man, Tina Juki, 2016-06-02

Low-Income Students, Human Development and Higher Education in South Africa Melanie Walker, Monica McLean, 2022-07-15 This book explores learning outcomes for low income rural and township youth at five South African universities. The book is framed as a contribution to southern and Africa centred scholarship adapting Amartya Sen's capability approach and a framework of key concepts: capabilities, functionings, context, conversion factors, poverty and agency to investigate opportunities and obstacles to achieved student outcomes. This approach allows a reimagining of inclusive learning outcomes to encompass the multi-dimensional value of a university education and a plurality of valued cognitive and non-cognitive outcomes for students from low income backgrounds whose experiences are strongly shaped by hardship. Based on capability theorising and student voices, the book proposes for policy and practice a set of contextual higher education capability domains and corresponding functionings orientated to more justice and more equality for each person to have the opportunities to be and to do what they have reason to value. The book concludes that sufficient material resources are necessary to get into university and flourish while there; the benefits of a university education should be rich and multi-dimensional so that they can result in functionings in all areas of life as well as work and future study; the inequalities and exclusion of the labour market and pathways to further study must be addressed by wider economic and social policies for inclusive learning outcomes to be meaningful; and that universities ought to be doing more to enable black working class students to participate and succeed. *Low Income Students, Human Development and Higher Education in South Africa* makes an original contribution to capability scholarship conceptually in theorising a South based multi-dimensional student well-being higher education matrix and a rich reconceptualisation of learning outcomes as well as

empirically by conducting rigorous longitudinal in depth mixed methods research on students lives and experiences in higher education in South Africa The audience for the book includes higher education researchers international capabilitarian scholars practitioners and policy makers

Afterimages of Apartheid Kylie Thomas, 2025-10-29 Afterimages of Apartheid shows how photographs of the past can be mobilised as a critical tool for understanding the ongoing effects of apartheid in contemporary South Africa Through close readings of significant images made during and after apartheid the book shows how photography works as a means of documentation commemoration and resistance Written by one of South Africa s leading scholars of visual history the book considers the ways in which photographs can be used to contest impunity for state violence Afterimages includes chapters on the Sharpeville and Marikana massacres on the re opening of cases of human rights violations that remain unresolved in the aftermath of the South African Truth and Reconciliation Commission and on contemporary protests against the post apartheid state The book makes a powerful case for the role of photographs in drawing the viewer into the past time they represent issuing a call to the living to remember respond and react This vivid account of the photography of apartheid will be of interest to students and researchers across the fields of South African history visual studies memory studies art history photography studies and transitional justice

Sri Lanka Human Capital Development Harsha Aturupane, World Bank, 2021-08-31 Human capital is a central determinant of economic well being and social advancement in the modern world economy The concept of human capital covers the knowledge skills nutrition and health that people accumulate over their lives enabling them to realize their potential as productive members of society Because of the vital importance of human capital for economic growth the World Bank has launched the Human Capital Project HCP which includes the Human Capital Index HCI The objective of the HCP is to accelerate human capital

development around the world The HCI is a cross country metric designed to measure and forecast a country's human capital Sri Lanka is a lower middle income country seeking to become an upper middle income country Developing human capital to a new and higher level will be central to achieving this development goal After the country's 26 year secessionist conflict ended in 2009 Sri Lanka's economy enjoyed rapid growth at an average rate of almost 6 percent between 2010 and 2017 reflecting a peace dividend and a determined policy thrust toward reconstruction and growth However in more recent years there have been signs of a slowdown The economy is transitioning from a predominantly rural economy to a more urbanized one In the context of the HCP and the HCI Sri Lanka Human Capital Development analyzes the main achievements and challenges of human capital development in this East Asia and Pacific island country in health and nutrition including stunting and in education including the challenges posed by Sri Lankans' low participation in higher education The report concludes with a look at the importance of building a consensus among the public and other stakeholders to launch an ambitious human capital development program in Sri Lanka Inside Salafi-Jihadist Governance Marta Furlan, 2025-09-23

In the years following the Arab Spring a number of Islamist insurgent groups conquered swaths of territory across the Middle East and North Africa and began governing civilian populations These groups have been faced with the complexities of administering justice collecting taxes and providing public services such as health care and education How do Salafi jihadist armed groups which typically claim to be committed to ideological purity approach administration and what does this reveal about rule by insurgent forces This book is a groundbreaking comparative exploration of Salafi jihadist governance drawing on in depth case studies of the Islamic State in western Iraq and eastern Syria Hayat Tahrir al Sham in northwestern Syria and al Qaeda in the Arabian Peninsula in southern Yemen Marta Furlan examines rebels' experiments in ruling considering issues such as the treatment of non Muslims the extent of civilian participation the use of coercive measures and the scope of social and political change She assesses whether there is a single model of Salafi jihadist governance the degree to which ideology and doctrine inform the behavior of rebel rulers and the similarities and differences between Salafi jihadists and other armed nonstate groups Offering a window into the inner workings of government and civilian life under Islamist power Inside Salafi Jihadist Governance sheds new light on rule by nonstate groups more broadly SAMT, 1975

Mergers and Acquisitions in Practice Shlomo Y. Tarba, Sir Cary L. Cooper, Riikka M. Sarala, Mohammad F. Ahammad, 2016-12-08 The growth in mergers and acquisitions M understanding and analyzing cultural difference along corporate and national cultural dimensions using measurement tools using negotiation due diligence and planning to analyze the above factors making use of this data during negotiation screening planning agreement and when deciding on post merger integration approaches Students researchers and managers will find this text a vital resource when it comes to understanding this key facet of the international business world **Anchored in Place** Bank, Leslie, Cloete, Nico, 2018-11-05 Tensions in South African universities have traditionally centred around equity particularly access and

affordability historical legacies such as apartheid and colonialism and the shape and structure of the higher education system What has not received sufficient attention is the contribution of the university to place based development This volume is the first in South Africa to engage seriously with the place based developmental role of universities In the international literature and policy there has been an increasing integration of the university with place based development especially in cities This volume weighs in on the debate by drawing attention to the place based roles and agency of South African universities in their local towns and cities It acknowledges that universities were given specific development roles in regions homelands and towns under apartheid and comments on why sub national place based development has not been a key theme in post apartheid higher education planning Given the developmental crisis in the country universities could be expected to play a more constructive and meaningful role in the development of their own precincts cities and regions But what should that role be Is there evidence that this is already occurring in South Africa despite the lack of a national policy framework What plans and programmes are in place and what is needed to expand the development agency of universities at the local level Who and what might be involved Where should the focus lie and who might benefit most and why Is there a need perhaps to approach the challenges of college towns secondary cities and metropolitan centers differently This book poses some of these questions as it considers the experiences of a number of South African universities including Wits Pretoria Nelson Mandela University and especially Fort Hare as one of its post centenary challenges
