Altador Cup Rank Guide:

Hearthstone Guide for Beginner and Advanced Players Victor Arthur, 2016-09-27 Are you struggling getting wins in Hearthstone Are you losing a lot and getting frustrated Simply want to reach the desired Legend rank Then this book is for you This book provides a good introduction to the game as a whole for beginners and advanced players It features tips and tricks on quests spending gold and dust wisely arena runs and crafting and disenchanting This book will also teach you how to become a better player regardless of what rank and how good you are You can learn what the meta game is how to adapt to it how to adapt and edit your deck accordingly how to build your collection and more You will also find deck recipes for beginners decks that cost zero dust and or gold Other deck recipes include decks for more advanced players and feature cards from the latest adventure One Night in Karazhan I am Victor Arthur a professional gamer and I will teach you how to become the best Hearthstone player and reach Legend rank This book includes First steps for complete beginners Quests achievements how to spend your gold and dust How to become a better player overall tips and tricks Learn how to adapt your deck in order to become better How to think in Hearthstone plan out your turns build your collection and more Warcraft Lore and crossover Basic deck recipes and guides for beginners all classes Druid Hunter Mage Paladin Priest Rogue Shaman Warlock Warrior Deck recipes and guides for more advanced players Malygos Druid Murloc Paladin Miracle Rogue OTK Warrior And much more Are you ready to become the best Hearthstone player Scroll up hit that buy button **30 Days to Diamond** St Petr, 2016-01-18 Before I tell you what 30 Days to Diamond is about let me tell you what it isn't This book is NOT the next 3 dollar booklet promising you all the tips and tricks nobody else knows Any book that makes such a claim is ridiculous misleading and a waste of time 30 Days to Diamond is 147 pages worth of specialized teaching produced by a Master Tier player on both EUW and EUNE servers It teaches all technical strategic and psychological aspects of the game from A to Z in a very unique and effective manner If there's anything I've learned after mentoring over 60 silver and bronze players it's that anyone and I mean ANYONE has the potential to become a Diamond level player within a very short time even if still new to League In spite of all the information available online the majority of League's community still struggle to achieve their goals in Ranked Nowadays there are so many Twitch streams YouTube channels and websites dedicated to teaching the game and yet the results are just not there for the majority Improving from Silver to Gold is nice but this is so much less than what progress should look like for most Being a teacher in real life the question I got absorbed in was What prevents people from mastering the game to the level they want despite them having access to all the information they need We are talking about hundreds of thousands of players that play ranked That's a lot of people Why is it that so many folks may spend weeks and even months watching Challenger streams play League for 5 hours a day and still not improve at the rate they could This inefficiency is not due to the people playing the game or the information they learn from It all has to do with how effective learning takes place A person's ability to learn from a piece of information is enhanced only to the degree

to which they can relate to it at that specific moment This is the factor that dictates how fast one improves over a period of time Here is an analogy If I were to pick two different gold 3 players for example one may assume that they are at a similar spot on the tree of game knowledge They are both gold 3 so they must be right No their spot on that tree is unique as is the combination of things they know and don t know it s just that the net result happens to be the same Depending on which leafs and branches of the tree they have if they were both to be traditionally taught the same thing in the same exact way the result wouldn t be optimal for both The key to overcoming those limitations is through teaching the game in the most relatable way by utilizing the functions of the left and right brain hemispheres SIMULTANEOUSLY through associations and other learning techniques What most people don t realize is that their progress is not only limited by what they don t know but also the unconscious habits and pathways they ve created and CONTINUE to create each time they play Improving at the fastest rate is achieved by also following a daily practice routine that revolves around repeated behaviors that create the right habits while unlearning the wrong ones Basically you transform as a player and it takes about a month So here is my attempt to change things for the better and have a positive impact on the community I wrote this book specifically for new and old players that struggle to reach Diamond It s updated and relevant to the current Season 6 Everyone that learns from it should be able to reach Diamond within 30 days of practicing no matter what their starting point is I stand behind my statement that ANY low elo player has the potential to get to Diamond in a short time when taught correctly As far as the time commitment required playing 2 4 games a day and dedicating about an hour for the method described in Chapter 9 is plenty The method is designed specifically for people with a job school other real life activities who cannot dedicate 10 hours a day to League
