Strategic Alliances as Social Facts Mark De Rond,2003-06-19 How can we explain a proliferation of alliances when the probability of failure is higher than success And why have we emphasized their order manageability and predictability whilst acknowledging that they tend to be experienced as messy politically charged and unpredictable Mark de Rond in this provocative book sets out to address such paradoxes Based on in depth case studies of three major biotechnology alliances he suggests that we need theories to explain idiosyncrasy as well as social order He argues that such theories must allow for social conduct to be active and self directed but simultaneously inert and constrained thus permitting voluntarism determinism and serendipity alike to explain causation in alliance life The book offers a highly original combination of insights from social theory and intellectual history with more mainstream strategic management and organizations literature It is a refreshing and thought provoking analysis that will appeal to practitioner and academic researcher alike

Brooklyn's Renaissance Melissa Meriam Bullard, 2017-06-05 This book shows how modern Brooklyn's proud urban identity as an arts-friendly community originated in the mid-nineteenth century. Before and after the Civil War, Brooklyn's elite, many engaged in Atlantic trade, established more than a dozen cultural societies, including the Philharmonic Society, Academy of Music, and Art Association. The associative ethos behind Brooklyn's fine arts flowering built upon commercial networks that joined commerce, culture, and community. This innovative, carefully researched, and documented history employs the concept of parallel Renaissances. It shows influences from

Renaissance Italy and Liverpool then connected to New York through regular packet service like the Black Ball Line that ferried people ideas and cargo across the Atlantic Civil War disrupted Brooklyn s Renaissance The city directed energies towards war relief efforts and the women s Sanitary Fair The Gilded Age saw Brooklyn s Renaissance energies diluted by financial and political corruption planning the Brooklyn Bridge and consolidation with New York City in 1898     Manual of the Methodist Episcopal Church Methodist Episcopal Church,1882     *Public Documents* North Dakota.
