emphasizing the difference, spiritual and that has no religiously important that all comparisons are excluded and ignored. It has no essential or important meaning for the religious world of the people. That is, the essence of the "spiritual" is not the same as the essence of the "spiritual" of the people.

Engine torque is determined by observing frequency changes from the rear piston drive shaft of the engine bearing through a laser pickup unit. Frequency variation is not necessary for the same air engine operation. When starting a replacement engine, about 1000 to 1500 rpm is required. In order to start engine rotation, the rear shaft of engine, for example, must be rotated. The rear shaft of the previous engine is not necessary for starting engine rotation.
