intermediate goals will be presented with a brief justification. Unfortunately, the intermediate goals will be presented as if all the goals were the property of the intermediate goals. That is, the goals will be presented as if the intermediate goals were the only goals. In addition, you will see the intermediate goals listed with a justification that says that the intermediate goals are the only goals.

One important class of chemical reactions is double-displacement reactions. These occur when elements (and) compounds undergo trading or replacing ions. For example, in the following double-displacement reaction, the products are:
