Expository Writing in Political Science Diane E. Schmidt,1993 **Report of the Proceedings of the Second General Peace Congress Held in Paris on ;the 22nd, 23rd and 24th of August, 1849** ,1849 Syllabus ,1981

Jurisprudence in the Mirror Luka Burazin,2024-08-28 There is something quite puzzling about the global conversation on jurisprudence On the one hand jurisprudence is supposed to deal with abstract questions concerning the nature structure and distinctive features of the law These questions are not tightly associated with or dependent on the particular legal practices in one jurisdiction or another But on the other hand it seems that jurisprudents are tacitly affected by their background institutional context there is an evident divide between theorizing about the law in the civil law world and in the common law world *Jurisprudence in the Mirror The Common Law World Meets the Civil Law World* systematically presents the major achievements of contemporary civil law jurisprudence to the common law world and bridges the gap in analytic jurisprudence as it is currently practiced in the two traditions The volume seeks to bring different voices to the table and overcome the cultural and linguistic divides that have created barriers in philosophical exchanges The book s structure is dialogical it includes twelve essays written by prominent and influential jurisprudents from the civil law world each followed by a response by a jurisprudent from the common law world This approach highlights what the two worlds share where they part ways and why The varied contributions reveal how their respective legal traditions shape fundamental legal concepts and jurisprudential debates and will be invaluable to readers from both the civil and common law worlds **Report of the Proceedings of the ... General Peace Congress** ,1849 Research Reports United States. Commission on Population Growth and the American Future,1972 *Legal Duties and Other Essays in Jurisprudence* Carleton Kemp Allen,1931

Topographies of Fascism Nil Santianez,2013-10-28 *Topographies of Fascism* offers the first comprehensive exploration of how Spanish fascist writing essays speeches articles propaganda materials poems novels and memoirs represented and created space from the early 1920s until the late 1950s Nil Santi ez contends that fascism expressed its views on the state the nation and the society in spatial terms for example the state as a building the nation as an organic unity and society as the people s community just as its adherents celebrated fascism in its architecture public spectacles and military rituals While *Topographies of Fascism* centres on Spain a nation that produced a large number of fascist texts focused on space it also draws on works written by key German Italian and French fascist politicians and intellectuals Ultimately it provides an innovative model for analyzing the comparable yet often overlooked strategies of symbolic representation and production of space in fascist political and cultural discourse **Natural Law Theories in the Early Enlightenment** T. J. Hochstrasser,2000-09-14 This major addition to *Ideas in Context* examines the development of natural law theories in the early stages of the Enlightenment in Germany and France T J Hochstrasser investigates the influence exercised by theories of natural law from Grotius to Kant with a comparative analysis of the important intellectual innovations in ethics and political

philosophy of the time Hochstrasser includes the writings of Samuel Pufendorf and his followers who evolved a natural law theory based on human sociability and reason fostering a new methodology in German philosophy This book assesses the first histories of political thought since ancient times giving insights into the nature and influence of debate within eighteenth century natural jurisprudence Ambitious in range and conceptually sophisticated Natural Law Theories in the Early Enlightenment will be of great interest to scholars in history political thought law and philosophy *Energy and Economic Myths* Nicholas Georgescu-Roegen, 2014-05-18 *Energy and Economic Myths* Institutional and Analytical Economic Essays is a collection of materials that deal with various issues and concerns in economics The title aims to clarify the misconception in economics The first part of the text deals with the issues in natural resources and the economics of production Next the selection tackles the problems in institutional economics Part III covers the epistemological and methodological concerns in economics The title also talks about economic theories The book will be of great interest to economists and readers who want to enhance their understanding of economic concepts
