Culture and Adultery Barbara Leckie, 2015-09-14 Adultery it is often assumed was not a major concern of English culture during the Victorian age and the apparent absence of adultery indeed of all explicit representations of sexuality in turn made censorship for obscene libel unnecessary Very few writers conventional wisdom has it were bold enough to defy the powerful implicit constraints imposed upon literary production If we find no English Anna Karenina or Madame Bovary Barbara Leckie nevertheless demonstrates that adultery preoccupied English culture during this period After the Matrimonial Causes Act of 1857 was passed adultery was prominently discussed in the Divorce Court

Transcriptions of divorce trials were an immensely popular front page feature of almost all daily newspapers for more than fifty years At the same time as narratives of adultery stood at the center of sensation novels such as Mary Elizabeth Bradden s The Doctor s Wife literary reviews and cultural debates strongly encouraged serious novelists to avoid the topic In Culture and Adultery Leckie mines novels newspapers court and Parliamentary records to explore several related sets of issues How first did adultery become visible in the public sphere in the second half of the nineteenth century Why conversely has the discursive history of adultery been deemphasized in the English critical tradition And how is the history of the Victorian and early twentieth century English novel revised when the culture s concern with adultery and censorship are reintroduced

Small and Medium Enterprises A. S. Bhalla, Dominick Salvatore, 1991-11-21 In recent years the potential role of small and medium enterprises SMEs in fostering socio economic development has received increasing attention in the international economic community However no previous works have dealt with the technological capabilities of these enterprises Here A S Bhalla and a distinguished group of contributors fill this gap by presenting a sustained analysis of the technology issues and options facing small and medium enterprises in both urban and rural settings The work is organized around three major issues the policies and programs that affect small and medium enterprises the innovation potential of these businesses and the institutions and infrastructure most conducive to their success in developing and advanced economies Following Bhalla's introduction Part One looks at the macro and microeconomic policy environment necessary to stimulate the innovative capacity and potential of SMEs The contributors show that existing policy measures are invariably geared toward large enterprises and discuss whether removal of these policy biases is enough to promote SME growth or whether more interventionist approaches are needed Part Two focuses on the capacity of SMEs to design and manufacture equipment or products adapting technology to suit their particular requirements The contributors challenge the accepted views in this area demonstrating that even microenterprises have the capacity for product and process innovations In Part Three the contributors examine the success of the business incubation process in fostering technological innovation the traditional forms of support offered to SMEs in developing economies and the linkages between SMEs and research institutions In each section individual chapters examine the operation of SMEs in a variety of settings in both advanced and developing countries
