Gumpertz, 2011-09-26 A valuable guide to conducting experiments and analyzing data across a wide range of applications. Experimental design is an important component of the scientific method. This book provides guidance on planning efficient investigations. It compiles designs for a wide range of experimental situations not previously found in accessible form. Focusing on applications in the physical, engineering, biological, and social sciences, **Planning, Construction, and Statistical Analysis of Comparative Experiments** is a valuable guide to designing experiments and correctly analyzing and interpreting the results. The authors draw on their years of experience in the classroom and as statistical consultants to research programs on campus, in government, and in industry. The object is always to strike the right balance between mathematical necessities and practical constraints. Serving both as a textbook for students of intermediate statistics and a hands-on reference for active researchers, the text includes a wide range of applications including agricultural sciences, animal and biomedical sciences, and industrial engineering studies. General formulas for estimation and hypothesis testing are presented in a unified and simplified manner. Guidelines for evaluating the power and efficiency of designs that are not perfectly balanced. New developments in the design of fractional factorials with non-prime numbers of levels in mixed-level fractional factorials. Detailed coverage on the construction of plans and the relationship among categories of designs. Thorough coverage of balanced lattice, cyclic, and alpha designs. Strategies for sequences of fractional factorials. Data sets and SAS code on a companion web site. An ideal handbook for the investigator planning a research program, the text comes complete with detailed plans of experiments and alternative approaches for added flexibility.

Hands Across The Sea Brian Cook, 2015-01-19 What happens when real talk gets a little too real? That's the 800 lb gorilla confronting the Office of the Sheriff. This character-driven saga puts the rear echelon in the crosshairs as *Hands Across the Sea* delves into the professional and personal sides of the badge where the rubber meets the road. The Office of the Sheriff, known as the Agency, comes face-to-face with the unexpected: the changing of the guard. Their larger-than-life Sheriff Garrison Cottrell abruptly resigns and passes the torch to his hand-picked successor, Brendan Callaghan. Explore how the Command staff's isms intertwine with their leadership styles and come to light during kaleidoscopic situations. Gear up for what happens when the door shuts and the dialogue begins, and sometimes not in that order. Will it bring the Agency together or tear it apart? Brian Cook doesn't just peer back the curtain; he pulls it down and gives you a look into personalities that often take on the guise of Peyton Place. But we're still talking about professionals, right?
