

MARK SCHEME for the May/June 2008 question paper

BOAT HISTORY

0051/08

Paper 1

Maximum raw mark 100

This mark scheme is published to assist teachers and students to understand the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that take place at an Examiners' meeting before marking begins. Any substantial changes to the mark scheme that arise from these discussions will be recorded in the published Report on the Examination.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the Report on the Examination.

The minimum marks in these components needed for various grades were previously published with these mark schemes, but are now placed inside the Report on the Examination for this session.

© CIE will not enter into discussion or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the May/June 2008 question papers for most IGCSE and CIE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

Synoptic Composition Adam J. Christian, 2023-09-01 The fascination with literary dependency in the most popular approaches to the synoptic problem has been built upon a faulty presupposition that oral tradition is incapable of producing the word for word verbal agreement found in the synoptic accounts Recent research in the area of oral tradition has shown that this is not the case but we still rely on increasingly complicated literary models to explain the relationships between the Synoptic Gospels This book engages in comparative analysis of Old Greek quotations found in more than one of the Synoptic Gospels along with the material that surrounds these quotations The resulting conclusions indicate that oral sources may better explain the similarities and differences found in the Synoptic Gospels and that we ought to reexamine our foundational presuppositions in order to craft a better model for understanding the origins of the Synoptic Gospels The hope is that the reader will join the author in seeking to better understand these books that include the climax of the greatest story of all time the true story of people marred by sin and their creator who seeks after them as he redeems all things to himself

Insecure Majorities Frances E. Lee, 2016-08-23 A tour de force Building upon her argument in *Beyond Ideology* she adds an important wrinkle into the current divide between the parties in Congress Perspectives on Politics As Democrats and Republicans continue to vie for political advantage Congress remains paralyzed by partisan conflict That the last two decades have seen some of the least productive Congresses in recent history is usually explained by the growing ideological gulf between the parties but this explanation misses another fundamental factor influencing the dynamic In contrast to politics through most of the twentieth century the contemporary Democratic and Republican parties compete for control of Congress at relative parity and this has dramatically changed the parties incentives and strategies in ways that have driven the contentious partisanship characteristic of contemporary American politics With *Insecure Majorities* Frances E Lee offers a controversial new perspective on the rise of congressional party conflict showing how the shift in competitive circumstances has had a profound impact on how Democrats and Republicans interact Beginning in the 1980s most elections since have offered the prospect of a change of party control Lee shows through an impressive range of interviews and analysis how competition for control of the government drives members of both parties to participate in actions that promote their own party's image and undercut that of the opposition including the perpetual hunt for issues that can score political points by putting the opposing party on the wrong side of public opinion More often than not this strategy stands in the way of productive bipartisan cooperation and it is also unlikely to change as long as control of the government remains within reach for both parties
