Cutting-Edge Language and Literacy Tools for Students on the Autism Spectrum Beals, Katharine P., 2022-06-24
Providing all students particularly those with learning disabilities with the skills necessary to succeed in school and by extension the real world is vital in today's educational landscape. Due to this need, innovative language and literacy tools have been developed to support these students in their learning endeavors and ensure they are receiving the best education possible. Cutting Edge Language and Literacy Tools for Students on the Autism Spectrum covers the root causes of the language and learning challenges in autism, their consequences for language acquisition and literacy, and a variety of tools and strategies for addressing them, from teaching technologies to assistive technologies. Drawing on what the most current evidence shows about the nature of autism and which therapies and technologies are most successful, the book reviews the efficacy of existing language therapies, literacy strategies, and assistive technologies. Covering topics such as speech deficits, language learning, comprehension, and assistive communication tools, this reference work is ideal for clinicians, behavioral specialists, speech language pathologists, special educators, researchers, academicians, practitioners, scholars, educators, and students.

ECHO: A Vocal Language Program for Easing Anxiety in Conversation Cesar E. Ruiz, Evelyn R. Klein, Louis R. Chesney, 2021-12-13
ECHO: A Vocal Language Program for Easing Anxiety in Conversation is for clinicians supporting individuals who may experience social anxiety related to speaking in specific situations or with certain individuals. Anxiety has a negative impact on working memory, which can make it difficult for individuals to communicate with ease. With reduced experiences talking to a variety of people in various situations, speaking often becomes more challenging. The ECHO program was developed to build ease and comfort with social pragmatic communication, focusing on improving conversational skills for children from later elementary through teenage years. The program can be implemented by speech language pathologists, psychologists, educators, and other facilitators, including parents, who support the needs of children and teens with selective mutism, stuttering, and those in need of social communication support. This unique intervention program combines methods of vocalization and verbalization to enhance conversational skills with role-play simulations for real-life application. There are three modules in the ECHO program that build upon each other. Module 1 uses interactive games to focus on vocal control, helping the child or teen learn how to initiate voice, modulate intonation, and volume with greater ease and produce classes of speech sounds in words and sentences. Module 2 provides targeted skills for the child or teen to use language for different purposes, change language for the listeners or situation, and follow rules for conversation and storytelling, all with online

interactive games to become a more spontaneous communicator Module 3 builds on the previous two modules by providing conversational role plays which simulate real life situations in school at home and in social and public settings A cognitive behavioral therapy CBT framework is applied to help reduce cognitive distortions Key Features Three modules bridging the gap from vocalization to conversation The ECHO Checklist to identify communication needs Social Communication Skills Pragmatics Checklist The ARC model for understanding anxiety tolerance rescue reduction and communication confidence Thirty five interactive games and activities with over 150 photos online and printed to help children and teens gain skills necessary to vocalize and engage in conversation Disclaimer Please note that ancillary content such as documents audio and video etc may not be included as published in the original print version of this book **The Aphasia Resource Book** Anne Dalrymple,Sarah Stanfield,Belinda Walker,2017-07-05 This book includes practical activity ideas to help people who have aphasia Designed for use by speech language therapists students volunteers and carers this is a very user friendly and practical workbook providing activity ideas to improve skills in specific areas for people who have aphasia The activities cover a range of difficulties encountered in aphasia including colour recognition reading and writing numeracy memory and vocabulary The book offers progress from easy to more complex tasks for each topic It helps you have a clear rationale for inclusion form part of an overall progression and have a simple list of materials required It aims to enhance the client s overall communication skills this may be by strengthening or teaching skills that have not been so damaged such as gesture drawing or writing Resulting from many requests from volunteers carers and students this book is ideal for anyone wishing to help people with the frustrating and persisting problem of aphasia The ideas can also be used as photocopiable homework activities for speech language therapists to give to clients face2face Starter Teacher's Book with DVD Chris Redston,2013-09-12 face2face Second edition is the flexible easy to teach 6 level course A1 to C1 The Starter Teacher s Book offers detailed teaching notes for every lesson keys to exercises and extra teaching notes It also guides teachers through the Student s Book DVD ROM and relates face2face to CEFR levels and English Profile Additionally busy teachers can access photocopiable progress tests and communicative class activities The free DVD in the Second edition Starter Teacher s Book offers classroom videos integrated with the Real World lessons in the Student s Book as well as the entire content of the Teacher s Book in PDF format *Face2face Elementary Teacher's Book with DVD* Chris Redston,Gillie Cunningham,Jeremy Day,2012-03-20 The course for teachers who want to get their students communicating with confidence face2face is an easy to teach General English course that helps adults and young adults to speak and listen with confidence The Workbook with Key offers additional consolidation activities and a Reading and Writing Portfolio for extra skills practice **Face2face Pre-intermediate Teacher's Book with DVD** Chris Redston,Jeremy Day,Gillie Cunningham,2012-03-22 Face2face Pre intermediate is an easy to teach General English course that helps adults and young adults to speak and listen with confidence The DVD ROM in the Student s Book includes consolidation activities and electronic portfolio for learners to track

Drawing a Blank: Improving Comprehension for Readers on the Autism Spectrum Emily Doyle Iland, Ma Emily Iland, 2011. Students with autism should not have struggle with reading comprehension. Many individuals with autism spectrum disorder may be fluent word callers; indeed, many have advanced ability to recognize words. However, many people with autism spectrum disorder need support when it comes to reading comprehension. Comprehension difficulties in readers with ASD can be subtle and difficult to tease out. As a result, their substantial level of risk for reading comprehension problems is often overlooked or unaddressed, and many students struggle in silence. This is where *Drawing a Blank: Improving Comprehension for Readers on the Autism Spectrum* is helpful. This practical and well-researched resource provides educational professionals and parents with the tools needed to improve comprehension for good decoders who have reading comprehension difficulties as well as readers who struggle with both decoding and comprehension. In keeping with current standards, the book emphasizes the importance of using evidence-based and promising practices based on thorough assessment of students with autism spectrum disorder. This resource helps those with autism spectrum disorder learn how they can become better and more effective readers. Foreword by Brenda Smith Myles.
