USA Lev Dynkin and his team continue to spoil us this book is yet another example of intuitive insightful and pertinent research which builds on the team's previous research. As such, the relationship with this team is one of the best lifetime learning experiences I have had. Eduard van Gelderen, Chief Investment Officer, Public Sector Pension Investment Board, Canada: The rise of a systematic approach in credit is a logical extension of the market's evolution and long overdue. Barclays QPS team does a great job of presenting its latest research in a practical manner. It improves the chances of investing success. This book by a team of experts shows you the way. You will gain insights into the advanced methodologies of combining fundamental and market data. I recommend this book for all credit investors. Lim Chow Kiat, Chief Executive Officer, GIC Asset Management, Singapore: For nearly two decades, QPS conducted extensive and sound research to help investors meet industry challenges. The proprietary research in this volume gives a global overview of cutting edge developments in alpha generation for credit investors from signal extraction and ESG considerations to portfolio implementation. By extending their research to ESG ratings, the authors also provide timely insights in the expanding field of sustainable finance. Eloy Lindeijer, former Chief of Investment Management, PGGM, Netherlands: Over more than a decade, Lev Dynkin and his QPS team have provided me and APG with numerous innovative insights in credit markets. Their work gave us valuable quantitative substantiation of some of our investment beliefs. This book covers new and under-researched areas of our markets like ESG and factor investing next to the rigorous and practical work akin to the earlier work of the group. I'd say read this book and learn from one of the best. Herman Slooijer, Managing Director, Head of Fixed Income, APG Asset Management, Netherlands.
