Handbook of Research on Promoting Global Citizenship Education Keengwe, Jared, 2022-02-18 A global citizen is an individual who believes in a public responsibility for their local community to grow and interconnect amongst the world's diverse people and things. Global citizenship education is a fast-moving process that continues to intertwine communities all over the world. As we move toward a more global world, the improvement in education, health, poverty rates, and standard of living should come with it. This global world must be a place where people are aware of what is going on and can have an impact as well. The Handbook of Research on Promoting Global Citizenship Education explores various ways to empower educators to design and implement a curriculum that incorporates global citizen education. Covering a range of topics such as global issues and academic migration, this major reference work is ideal for academicians, industry professionals, policymakers, researchers, scholars, instructors, and students.
