Webb, 2024-08-20 South Africa's higher education sector is rooted in the country's divided past. A significant State-driven restructuring from around 1997 to 2005 resulted in what is largely the current configuration of public universities. But just over two decades later, for a variety of reasons, the higher education sector in South Africa appears beset with numerous challenges. Nelson Mandela University is one of the public universities that emerged from the restructuring process. The university is in an ongoing state of evolution, becoming. It developed out of the amalgamation of the University of Port Elizabeth, Port Elizabeth Technikon, and incorporation of the Port Elizabeth campus of Vista University as Nelson Mandela Metropolitan University in 2005. In 2017, it was renamed Nelson Mandela University after the world-renowned statesman rather than the metropolitan area in which the university is primarily located. The renaming was conceptualised as more than a marketing opportunity to rebrand the university but as an opportunity to reorientate the university to reposition Nelson Mandela University as an engaged and socially embedded university in the service of society, striving to be the academic expression of the values and ethos of its iconic namesake. Endeavouring to be something greater and different from the norm imbues its strategy, public statements, and practices. The determination to achieve Mandela University serves or is intended to serve as both an organising principle and a lodestar. A cross-section of writers from different backgrounds situates Nelson Mandela University within the contemporary historical moment from which it emerged and examines its subsequent evolution. While Nelson Mandela University has performed the usual work expected of any university, it has also sought to turn the university outwards to achieve a higher purpose, framing itself as a values-based university on a journey to become something else. In *Achieving Nelson Mandela University*, the university attempts to give an account of itself. The book is an intellectual and scholarly reflection on where the university has come from and where it is seeking to go. Crystallizing Ideas - The Role of Chemistry Ponnadurai Ramasami, Minu Gupta Bhowon, Sabina Jhaumeer Laulloo, Henri Li Kam Wah, 2016-06-29 Twenty-three carefully selected peer-reviewed contributions from the International Conference on Pure and Applied Chemistry ICPAC 2014 are featured in this edited book of proceedings. ICPAC 2014, a biennial meeting, was held in Mauritius in June 2014. The theme of the conference was Crystallizing Ideas: The Role of Chemistry, and it matched the declaration of the year 2014 as the International Year of Crystallography. ICPAC 2014 was attended by 150 participants from 30 countries. The chapters in this book reflect a wide range of fundamental and applied research in chemistry and interdisciplinary subjects. *Crystallizing Ideas: The Role of Chemistry* is written for graduates, postgraduates, researchers in industry, and academia who have an interest in the fields ranging from fundamental to applied chemistry. **Financial Inclusion and Digital Transformation Regulatory Practices in Selected SADC Countries** Howard Chitimira, Tapiwa Victor Warikandwa, 2023-03-28 This book investigates the regulation and promotion of financial inclusion and provides a comparative analysis of the regulation, promotion, and enforcement of the relevant laws in the SADC, in particular South Africa.

Namibia Botswana and Zimbabwe as well as the challenges of financial inclusion In turn it evaluates financial inclusion in the context of specific challenges faced by unbanked and underbanked customers who are easy targets for cyber criminals because they tend to have lower levels of digital literacy The book presents novel discussions that identify the challenges and flaws associated with the enforcement of financial inclusion laws and related measures intended to promote financial inclusion in the SADC region This is primarily done in order to reveal the current strengths and weaknesses of financial inclusion laws in relation to certain aspects of the companies securities and financial markets in the region For example there is no common financial inclusion instrument law that is effectively and uniformly applied throughout the SADC This has impeded the enforcement authorities efforts to effectively combat financial exclusion across the region The book is likely the most comprehensive study to date on the regulation and promotion of financial inclusion in the SADC region and fills a major gap in SADC and African legal jurisprudence As such it offers a valuable asset for policymakers attorneys bankers securities share holders and other market participants who deal with financial inclusion as well as undergraduate and graduate students interested in the topic
