Moving the Masses: Bus-Rapid Transit (BRT)

Policies in Low Income Asian Cities Suryani Eka Wijaya, Muhammad Imran, 2019-02-25 Public transport in low income Asian LIA cities fails to meet people's mobility needs, generates high greenhouse gas (GHG) emissions and worsens social exclusion. Following successful Bus Rapid Transit (BRT) projects in Bogotá and Curitiba, LIA countries promoted BRT in their large to medium sized cities. However, the political and institutional structure distinctive to LIA cities makes their implementation difficult. This book investigates policy tensions by examining the planning and attempted implementation of BRT projects taking Bandung and Surabaya in Indonesia as case studies. It analyses BRT to understand how power and communication gaps in institutional relationships between different actors at multiple levels of governance create conflict and concludes that top-down policies and funding mechanisms cause tension in intergovernmental relationships. It also found that BRT solutions generated socio-political tension arising from the socio-economic realities and local political dynamics that shaped city structure, mobility patterns and capacity in resolving conflicts. The superimposed BRT solution generated discursive tension because conflicting discourses were not aligned with local economic, social and environmental issues. The book highlights the need to take into consideration the vital role of local social and political actors, institutions and planning processes as they respond to and shape policies that are imposed by higher levels. *ICSE History & Civics for Class IX (A.Y. 2023-24)* Onward D.N. Midterm Campaigning and the Modern Presidency Michael A. Julius, 2018-07-11

Providing a unique resource for readers seeking to understand the relationship between presidents parties and Congress this book offers a new explanation of the motivations strategies and impacts of presidential midterm campaigns

Congress has been shaped by an unlikely force presidential involvement in midterm campaigning

This book argues that midterm campaigning is a presidential Trojan horse and that in undertaking it presidents have brought their parties to heel indebted individual representatives and senators to them and broken the ability of Congress to effectively check the executive office

Midterm Campaigning and the Modern Presidency looks at why presidential midterm campaigning emerged during the post war period and why it did not emerge sooner

it then describes how presidents have shrewdly coordinated their midterm actions to not only shore up their immediate needs but also to remake in their own image both their party and Congress as a whole

Not merely about any particular election or candidate the book shows that presidential midterm campaigning has a lasting impact on the behavior of Congress and on the future course of American political affairs
