2012 GCSE English results Great Britain: Parliament: House of Commons: Education Committee, 2013-06-11 The 2012 GCSE English results prompted significant controversy which ultimately resulted in an application for judicial review This report sets out the background to these events and identifies lessons to be learned The problems with GCSE English can be traced back to the 2007 09 development phase of the qualification in particular the turbulence which resulted from the shift away from a mostly linear to a modular system combined with a high proportion of controlled assessment and generous marking tolerances Exam board experts raised concerns at the time but these were not acted upon by the regulator the then interim Ofqual Further difficulties arose because of pressures from the school accountability system The problems experienced with GCSE English in 2012 highlighted serious weaknesses in the moderation of speaking and listening with consequences for grade awarding The current status of Ofqual as an independent regulator accountable to Parliament is the right one However the Coalition Government is bringing in wholesale changes to GCSEs and A levels to a tight timetable and at the same time Ofqual must have systems in place The Committee is also concerned that there is a rush towards separate exam systems for England Wales and Northern Ireland without careful reflection on what might be lost or consensus that this is the right thing to do

House of Commons - Culture, Media and Sport Committee: Supporting The Creative Economy - Volume I: HC 674 Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee, 2013-09-26 This report warns that the extraordinary success of the UK's creative industries may be jeopardised by any dilution of intellectual property rights and the failure to tackle online piracy The Committee also strongly condemns the failure of

Google in particular to tackle access of copyright infringing websites through its search engine Such illegal piracy combined with proposals arising from the Hargreaves review to introduce copyright exceptions and a failure to strengthen copyright enforcement as envisaged by the Digital Economy Act 2010 together threaten the livelihoods of the individuals and industries that contribute over 36 billion annually to the UK economy Also the Olympics No Marketing Rights scheme is excessively restrictive and is preventing British creative companies from realising the benefits they deserve from the Olympic legacy The Committee calls for a central champion of Intellectual Property in Government to promote and protect the interests of UK intellectual property the maximum penalty for serious online IP theft to be increased to 10 years imprisonment in line with the punishment for such offences in the physical world more evidence and scrutiny before any exceptions to copyright such as those suggested by Hargreaves are applied redoubled efforts to ensure that the video games tax credit is approved by the European Commission and introduced as soon as possible reforms to the income tax and tax reliefs systems to recognise adequately the freelance nature of much creative work greater recognition of the importance of arts subjects in the curriculum

The Armed Forces Covenant in action? Great Britain: Parliament: House of Commons: Defence Committee,2013-07-18 A series of Ofsted inspections on Army Apprenticeships conducted in 2013 rated the overall effectiveness as good This was an improvement over the last inspection in 2009 rated as satisfactory now called requires improvement Some 28 per cent of Army recruits were less than 18 years of age Further information is needed on why the Army is so dependent on recruiting personnel under the age of 18 years compared to the other two Services and whether steps are being taken to reduce this dependency Of those recruited in 2012 3 5 per cent of the Army were rated at entry level 2 for literacy that of a 7 to 8 year old and 39 per cent had a literacy level of an eleven year old If as the MoD states it has to recruit personnel at whatever level of attainment is available then it should boost remedial action when recruitment entry standards are particularly low In light of changes brought about by Future Force 2020 it may be that recruiting personnel with higher levels of attainment would better meet the future needs of the Armed Forces Whilst the Committee recognises that some recruits may not be eager to take further academic exams the MoD should encourage more recruits to undertake English and Maths GCSEs which would stand them in good stead for future employment The MoD has carried out some useful pilot projects with paramedic training and should identify more potential projects to ensure that vital skills paid for by the MoD are not lost to the country
