8. Accordingly, a patent for a single parameter (temperature/humidity) and more preferably for two (temperature/humidity) and/or pressure, should not be granted per se. It may even be argued that such a patent is not even patentable, since it does not satisfy the threshold of non-obviousness. It is in doing this, however, that potential problems for implementation that could result from a lack of a clear definition of the parameters should be taken into account.
