

AP Lit and Comp Multiple Choice Practice

In order to prepare students for the exam, I teach students to identify the types of questions the AP exam will ask and how to attack them.

I have my students review the types of questions and then give them short passages taken from Applied Practice.

The first couple of times I start this, I just have students identify the type of question only. Once they can identify the types of questions quickly, I will then have them attempt to answer the questions. The following is the format I use:

Lesson 1: Pass out Types of AP Multiple Choice Questions handout. Review types of questions with students. Pass out first passage and model how to QMCr identify the types of questions for students. Pass out a second passage and have students QMCr identify the types of questions on their own. I usually give them about 30 seconds per question. Review with students.

Lesson 2: Have students review Types of AP Multiple Choice Questions handout again. Have students review previous two passages. Pass out new passage and have students QMCr identify types of questions. I give them about 30 seconds per question. Review with students. At this point if you feel like the students are identifying the types of questions correctly, move on to having students identify AND answer the questions the next time. If you feel students are still not identifying questions correctly, do another lesson of QMCr identifying types of questions until you feel students have mastered identifying questions.

Lesson 3: Once students have mastered identifying questions, pass out the next passage and have students identify AND attempt to answer. I give students one minute a question. The AP exam usually has about 50 multiple choice questions and students get 2 hour to complete the multiple choice section of the exam. After students have attempted to identify AND answer the questions, review the answers with them. I take it one step further and then have students justify their answers that they answered incorrectly. Refer to the following example:

25. The speaker's "ambition" (l. 25) include all of the following except

- A) the promise of discovery
- B) the hope of regulating
- C) the chance of uncovering secrets
- D) unlimited expectations
- E) the hope of becoming notorious

Types of Questions: Inference and Except, Close Read

A) incorrect because line 30-31 states he wants to discover a passage near the poles

B) incorrect because line 13 "May regulate a thousand celestial..."

C) incorrect because line 32 "ascertaining the secret of the magnet"

D) incorrect because line 17 "Land surpassing in wonders and in beauty every region...discovered...glide"

E) correct because nowhere in the passage does he mention he hopes to become notorious
