attention and most memorable writing for San Francisco For Starr despite the city's beauty and commercial importance San Francisco's most important achievement was the sense of well being it conferred on its citizens It was a city that magically belonged to everyone Whether discussing photographers like Edward Weston and Ansel Adams hard boiled fiction writers or the new breed of female star Marlene Dietrich Jean Harlow Bette Davis Carole Lombard and the improbable Mae West The Dream Endures is a brilliant social and cultural history in many ways the most far reaching and important of Starr's California books Los Angeles Annual Builders Guide, 1923 *The Routledge Companion to Art Deco* Bridget Elliott, Michael Windover, 2019-06-25 Scholarly interest in Art Deco has grown rapidly over the past fifty years spanning different academic disciplines This volume provides a guide to the current state of the field of Art Deco research by highlighting past accomplishments and promising new directions Chapters are presented in five sections based on key concepts migration public culture fashion politics and Art Deco's afterlife in heritage restoration and new media The book provides a range of perspectives on and approaches to these issues as well as to the concept of Art Deco itself It highlights the slipperiness of Art Deco yet points to its potential to shed new light on the complexities of modernity **AB Bookman's Weekly**, 1985 **Nothing Permanent** Todd Cronan, 2023-06-20 A critical look at the competing motivations behind one of modern architecture's most widely known and misunderstood movements Although mid century modern has evolved into a highly popular and ubiquitous architectural style this term obscures the varied perspectives and approaches of its original practitioners In *Nothing Permanent* Todd Cronan displaces generalizations with a nuanced intellectual history of architectural innovation in California between 1920 and 1970 uncovering the conflicting intentions that would go on to reshape the future of American domestic life Focusing on four primary figures R M Schindler Richard Neutra and Charles and Ray Eames *Nothing Permanent* demonstrates how this prolific era of modern architecture in California rather than constituting a homogenous movement was propelled by disparate approaches and aims Exemplified by the twin pillars of Schindler and Neutra and their respective ideological factions these two groups of architects represent opposing poles of architectural intentionality embodying divergent views about the dynamic between interior and exterior the idea of permanence and the extent to which architects could exercise control over the inhabitants of their structures Looking past California modernism's surface level idealization in present day style guides home decor publications films and television shows *Nothing Permanent* details the intellectual aesthetic and practical debates that lie at the roots of this complex architectural moment Extracting this period from its diffusion into visual culture Cronan argues that mid century architecture in California raised questions about the meaning of architecture and design that remain urgent today **American Urbanism** Howard Gillette, Zane Miller, 1987-08-19 One of the major growth fields of the past quarter century American urban history has generated a rich and diverse literature spanning a number of disciplines in the social sciences and humanities In this time of transition historians and practitioners alike can benefit greatly from assessing the

contributions of the field This valuable reference work takes a critical approach to existing literature Dealing with various related avenues of the field which have not always been closely linked together these essays provide a basis for new synthesis and reinterpretation as well as for judgment about the lasting effects of the American urban experience *Catalog of Copyright Entries.
