Aimed at students of conference interpreting, whether on university and professional training courses or self-learners, *Note Taking for Consecutive Interpreting: A short Course* offers future interpreters a step-by-step guide to the skill of note-taking, which forms an essential part of consecutive interpreting. The system proposed, made up of a range of tried and tested techniques, is simple to learn, consistent, and efficient. This is a book which can be read at one sitting but is designed to be worked through over a number of months. Each chapter presents a technique together with examples, tasks, and exercises for the reader to complete, true to the motto 'learning by doing'. The book uses English throughout, explaining how and where to locate material for other languages. It thus constitutes a course which offers student interpreters in any language combination a sound and adaptable base on which to build as they develop their skills.
