Harrington, AI, 2025-05-06 *Literary Awards* examines the significant role of international literary prizes as cultural gatekeepers influencing global literary trends and shaping perceptions of good literature. These awards including the Nobel Prize in Literature, the Booker Prize, and the Prix Goncourt often dictate the flow of cultural capital and impact literary canons. The book reveals how factors beyond pure artistic merit such as political considerations and market forces affect these accolades. Did you know that these awards can act as tools of cultural diplomacy influencing international relations through literature? The book offers a historical overview tracing the evolution of literary prizes from national systems to global phenomena. It analyzes how post colonialism, globalization, and the rise of a global literary market have shaped these awards. By examining specific case studies and incorporating interviews with authors and publishers, *Literary Awards* argues that these prizes while powerful are not neutral arbiters of literary quality. The book progresses from introducing key concepts like cultural capital to analyzing specific awards and discussing ethical implications, providing a comprehensive analysis of the literary awards landscape.
